Algebraic Theory Of Spinors:

The Algebraic Theory of Spinors and Clifford Algebras Claude Chevalley, 1996-12-13 In 1982 Claude Chevalley expressed three specific wishes with respect to the publication of his Works First he stated very clearly that such a publication should include his non technical papers His reasons for that were two fold One reason was his life long commitment to epistemology and to politics which made him strongly opposed to the view otherwise currently held that mathematics involves only half of a man As he wrote to G C Rota on November 29th 1982 An important number of papers published by me are not of a mathematical nature Some have epistemological features which might explain their presence in an edition of collected papers of a mathematician but quite a number of them are concerned with theoretical politics they reflect an aspect of myself the omission of which would I think give a wrong idea of my lines of thinking On the other hand Chevalley thought that the Collected Works of a mathematician ought to be read not only by other mathematicians but also by historians of science
