Alexander Gorlin Alexander Gorlin, Vincent Joseph Scully, 1997 In only ten years of practice New York based architect Alexander Gorlin has established a prominent reputation as the designer of more than 20 residences for high profile clients in the media and fashion industries In his work Gorlin investigates the dialogue between architecture and landscape exploring the affinities between classicism and modernism in materials ranging from the sensual to the industrial The first monograph on Gorlin showcases 28 projects with stunning color photography and includes townhouses private houses and apartments urban planning studies for Battery City Park and the Tribeca areas of Manhattan and entries for the Prado Museum and Berlin Spreebogen competitions

Creating the New American Town House Alexander Gorlin, 2005 Once the bastion of the haute bourgeoisie the town house has now been embraced by families with young children single urban professionals and retired couples all looking for more comfortable city or suburban living Architect Alexander Gorlin explores a spectacular array of diverse town house designs often referred to by different terms in different parts of the country that carry this familiar symbol of architectural innovation and refinement into the twenty first century Creating the New American Town House features cutting edge town houses that each draw from architectural tradition while achieving originality by both breaking from and adhering to the limitations of the town house form Within the typical five story frame and two parallel walls presented here are ingenious and exquisite and above all extremely livable design solutions to the constraints of this classic housing type Ranging from sites in New York San Francisco Seattle Los Angeles and Washington DC each of the buildings featured in Creating the New American Town House represents an eloquent contribution to the form and is designed by such celebrated architects as Steven Ehrlich Hugh Newell Jacobson Reed Krakoff Stanley Saitowitz and 1100 Architect Each project is extensively illustrated with full color photography that showcases the interior design as well as plans and drawings Alexander Gorlin's insightful text continues the discourse begun in his The New American Town House surveying the adaptation of this beloved urban dwelling to the demands of a new century

Guide To Contemporary New York City Architecture John Hill, 2011-12-13 The essential walking companion to more than two hundred cutting edge buildings constructed since the new millennium The first decade of the 21st century has been a time of lively architectural production in New York City A veritable building boom gripped the city giving rise to a host of new and architecturally cutting edge residential corporate institutional academic and commercial structures With the boom now waning this guidebook is perfectly timed to take stock of the city's new skyline and map them all out literally This

essential walking companion and guide features 200 of the most notable buildings and spaces constructed in New York's five boroughs since the new millennium The High Line by James Corner Field Operations Diller Scofidio Renfro 100 Eleventh Avenue by Ateliers Jean Nouvel Brooklyn Children's Museum by Rafael Vinoly Architects 41 Cooper Square by Morphosis Poe Park Visitors Center by Toshiko Mori Architect and One Bryant Park by Cook Fox to name just a few Projects are grouped by neighborhood allowing for easy self-guided tours with photos maps directions and descriptions that highlight the most important aspects of each entry **Architectural Record**, 2009 **2000 Architects** Aisha Hasanovic, 2006 Doctor Haydock the resident GP of St Mary Mead hopes to cheer up Miss Marple as she recovers from the flu with a little story The tale revolves around the return of the prodigal son of Major Laxton the devilishly handsome Harry Laxton Harry after leading a life of childish indiscretions and falling head over heels for the village tobacconist's daughter has made good and returned to lay claim to his tumbling childhood home and introduce the village to his beautiful new wife But the villagers are prone to gossip about young Harry's past and one person in particular cannot forgive him for tearing down the old house Will Miss Marple's acumen be up to the task of solving the story **The Architecture of Disability** David Gissen, 2023-01-24 A radical critique of architecture that places disability at the heart of the built environment Disability critiques of architecture usually emphasize the need for modification and increased access but The Architecture of Disability calls for a radical reorientation of this perspective by situating experiences of impairment as a new foundation for the built environment With its provocative proposal for the construction of disability this book fundamentally reconsiders how we conceive of and experience disability in our world Stressing the connection between architectural form and the capacities of the human body David Gissen demonstrates how disability haunts the history and practice of architecture Examining various historic sites landscape designs and urban spaces he deconstructs the prevailing functionalist approach to accommodating disabled people in architecture and instead asserts that physical capacity is essential to the conception of all designed space By recontextualizing the history of architecture through the discourse of disability The Architecture of Disability presents a unique challenge to current modes of architectural practice theory and education Envisioning an architectural design that fully integrates disabled persons into its production it advocates for looking beyond traditional notions of accessibility and shows how certain incapacities can offer us the means to positively reimagine the roots of architecture Interior Design and Decoration, 1996-09 *Project 1995* Yukio Futagawa, 1995
