Alhajita Es Tu Canto El Capital Simbolico De Atahualpa:

Alhajita es tu canto Ricardo J. Kaliman, 2003 *Alhajita es tu canto* Ricardo J. Kaliman, 2004 The Militant Song Movement in Latin America Pablo Vila, 2014-05-01 Latin America in the 1960s and 1970s underwent a profound and often violent process of social change From the Cuban Revolution to the massive guerrilla movements in Argentina Uruguay Peru Colombia and most of Central America to the democratic socialist experiment of Allende in Chile to the increased popularity of socialist oriented parties in Uruguay or para socialist movements such as the Juventud Peronista in Argentina the idea of social change was in the air Although this topic has been explored from a political and social point of view there is an aspect that has remained fairly unexplored The cultural and especially musical dimension of this movement so vital in order to comprehend the extent of its emotional appeal has not been fully documented Without an account of how music was pervasively used in the construction of the emotional components that always accompany political action any explanation of what occurred in Latin America during that period will be always partial This book is an initial attempt to overcome this deficit In this collection of essays we examine the history of the militant song movement in Chile Uruguay and Argentina at the peak of its popularity from the mid 1960s to the coup d tats in the mid 1970s considering their different political stances and musical departments Throughout the book the contribution of the most important musicians of the movement Violeta Parra Víctor Jara Patricio Manns Quilapayún Inti Illimani etc in Chile Daniel Viglietti Alfredo Zitarrosa Los Olimareños etc in Uruguay Atahualpa Yupanqui Horacio Guarany Mercedes Sosa Marian Faras Gómez Armando Tejada Gómez César Isella Víctor Heredia Los Trovadores etc in Argentina are highlighted and some of the most important conceptual extended oeuvres of the period called cantatas are analyzed such as La Cantata Popular Santa María de Iquique in the Chilean case and Montoneros in the Argentine case The contributors to the collection deal with the complex relationship that the aesthetic of the movement established between the political content of the lyrics and the musical and performative aspects of the most popular songs of the period **The Latin American Songbook in the Twentieth Century** Tânia da Costa Garcia, 2019-08-27 The Latin American Songbook in the Twentieth Century From Folklore to Militancy takes an unprecedented comparative analysis approach to the complex relationship between popular music and culture society and politics in Latin America as it relates to representations of national identity Tânia da Costa Garcia analyzes archival research in Chile Brazil and Argentina which have very similar cultural and political processes This book is divided into two different parts the first focuses on how the folk studies movement was legitimized in Chile Brazil and Argentina while the second emphasizes the rich history of how the militant song movement in Spanish America was received transformed and transmitted to Brazil in the second half of the twentieth century This book will be especially useful to scholars of Latin American studies music studies cultural studies and history The Argentine Folklore Movement Oscar Chamosa, 2022-05-10 Oscar Chamosa brings forth the compelling story of an important but often overlooked component of

the formation of popular nationalism in Latin America the development of the Argentine folklore movement in the first part of the twentieth century This movement involved academicians studying the culture of small farmers and herders of mixed indigenous and Spanish descent in the distant valleys of the Argentine northwest as well as artists and musicians who took on the role of reinterpreting these local cultures for urban audiences of mostly European descent Oscar Chamosa combines intellectual history with ethnographic and sociocultural analysis to reconstruct the process by which mestizo culture in Argentina called criollo culture came to occupy the center of national folklore in a country that portrayed itself as the only white nation in South America The author finds that the conservative plantation owners the sugar elites who exploited the criollo peasants sponsored the folklore movement that romanticized them as the archetypes of nationhood Ironically many of the composers and folk singers who participated in the landowner sponsored movement adhered to revolutionary and reformist ideologies and denounced the exploitation to which those criollo peasants were subjected Chamosa argues that rather than debilitating the movement these opposing and contradictory ideologies permitted its triumph and explain in part the enduring romanticizing of rural life and criollo culture essential components of Argentine nationalism The book not only reveals the political motivations of culture in Argentina and Latin America but also has implications for understanding the articulation of local culture with national politics and entertainment markets that characterizes contemporary cultural processes worldwide today

Global Perspectives on Nationalism Debajyoti Biswas, Panos Eliopoulos, John C.

Ryan, 2022-12-16 Global Perspectives on Nationalism takes an interdisciplinary approach informed by recent theorisations of nationalism to examine perennial questions on the topic The idea of nationalism centres on questions of ethnicity culture religion language and access to resources What determines consciousness of nationalism How is nationalism manifested shaped or countered through literary and cultural productions The contributors highlight topical areas in studies of nationalism including ecology natural resources sustainability globalisation the Anthropocene postcolonialism indigeneity folklore popular culture and queer theory They develop innovative perspectives on nationalism through in depth analyses of the theoretical political literary linguistic cultural and ecological dimensions of nationalism in Argentina Australia Bangladesh Bosnia and Herzegovina China Germany Greece India Indonesia Lebanon Nepal Nigeria Poland Scotland Turkey the United States and elsewhere This volume underscores the importance of generative dialogue between disciplines in assessing the implications of nationalism for everyday life through five thematic sections I Ethnicity Ideology and Narration II Religion Identity and Heritage III Linguistics Tradition and Modernism IV Music Lyricism and Poetics and V Ecology Environment and Non Human Lives This book will be of particular value to students and researchers in philosophy literary studies and political theory with interests spanning ecology ethnicity folklore gender heritage identity linguistics nationalism nationhood religion and sexuality

Arte y estética en la encrucijada descolonial, *Sociología de las identidades*

Ricardo J. Kaliman, Diego J. Chein, 2018-03-06 C mo existen c mo se reproducen y c mo se transforman las identidades

culturales en las sociedades humanas Este libro avanza respuestas a estas preguntas en un contexto en el que se atiende por igual a las problemáticas propias de los estudios de las culturas y a los marcos más consensuales en la sociología cualitativa contemporánea Las reflexiones expuestas con una voluntad de claridad argumentativa provienen de los miembros de un proyecto de investigación abocado desde hace años al estudio de diversos procesos culturales en la región del Noroeste Argentino y están motivadas por una constante inquietud y compromiso por esclarecer las especificidades de la sociedad en la que viven evitando al mismo tiempo la tentación de los esencialismos y los localismos exacerbados El volumen unifica documentos de trabajo anteriormente elaborados y una introducción especialmente preparada para esta edición que cifra coordenadas epistemológicas y políticas en las que se encuadra esta aproximación

Música y discurso Claudio Díaz, Berenice Corti, 2018-03-22 Es posible que el campo de los estudios del discurso aporte conceptos novedosos y herramientas analíticas específicas a la investigación sobre músicas populares El presente volumen gira alrededor de esa pregunta y pone en evidencia que la relación música discurso está siendo largamente transitada en América Latina por investigadores que abordan el tema desde diversas tradiciones incluyendo la musicología la etnomusicología a las ciencias sociales en general y la semiótica y el análisis del discurso en particular Este libro es resultado de un intenso debate entre colegas de diferentes países en el marco de la Rama Latinoamericana de IASPM International Association for the Study of Popular Music y busca un doble resultado Por un lado bucear en un primer mosaico de investigaciones relativas al campo de estudios sobre discurso y músicas en la región Por el otro y a partir de la puesta en común de las perspectivas teóricas que circulan en el continente profundizar la producción de conocimiento autónomo y localizado un objetivo siempre deseable dadas las asimetrías del mercado mundial de conocimiento Por ese motivo estos trabajos abordan una amplia diversidad de fenómenos musicales situados en diferentes momentos y espacios culturales de nuestro continente aunque no exclusivamente y al mismo tiempo proponen diversas conceptualizaciones de los fenómenos discursivos Pero más allá de esas divergencias hay una convergencia en cuanto a la convicción de que estudiar una obra musical implica ponerla en relación con algo que esté fuera de ella porque es en esa relación y sólo en ella donde se articula eso que podemos llamar sentido Los estudios del discurso aportan las herramientas conceptuales para pensar esa articulación de la música con un conjunto de relaciones sociales como quiera que sean pensadas dando así lugar a la pregunta por la dimensión del poder Si algo caracteriza las diferentes matrices teóricas en las que se fundan los análisis aquí presentados es la consideración de las músicas y los discursos como un aspecto central de las disputas por el poder Es esa politicidad que tiene que ver con los condicionamientos complejos y heterogéneos de las músicas populares tanto en producción como en recepción lo que emerge cuando se las interroga en términos de discurso Y ese es tal vez el desafío más interesante que proponen los trabajos de este volumen

Musicians in Transit Matthew B. Karush, 2017-01-03 In *Musicians in Transit* Matthew B Karush examines the careers of seven major twentieth century Argentine popular musicians in the transnational context to show how their engagement with

foreign genres ideologies and audiences helped them create innovative new music and shape new Argentine cultural and national identities
