**The Generalship of Muhammad** Russ Rodgers, 2012-03-18 His campaigns military thought and insurgent strategy There are many biographies of the Prophet and they tend to fall into three categories pious works that emphasize the virtues of the early Islamic community general works for non Muslim or non specialist readers and source critical works that grapple with historiographical problems inherent in early Islamic history In The Generalship of Muhammad Russ Rodgers charts a new path by merging original sources with the latest in military theory to examine Muhammad's military strengths and weaknesses Incorporating military political and economic analyses Rodgers focuses on Muhammad's use of insurgency warfare in seventh century Arabia to gain control of key cities such as Medina Seeking to understand the operational aspects of these world changing battles he provides battlefield maps and explores the supply and logistic problems that would have plagued any military leader at the time Rodgers explains how Muhammad organized his forces and gradually built his movement against sporadic resistance from his foes He draws from the hadith literature to shed new light on the nature of the campaigns He examines the Prophet's intelligence network and the employment of what would today be called special operations forces And he considers the possibility that Muhammad received outside support to build and maintain his movement as a means to interdict trade routes between the Byzantine Empire and the Sasanid

Persians      **Satanic Voices** ,1992      *Beyond Secularism and Jihad?* Peter D. Beaulieu,2012-07-13 Peter D Beaulieu examines the challenge posed by and to modernity and historic Islam as they encounter one another He compares the Western separation of Church and state with the unitary Islamic State and explores the proposed cultural and societal principles of the Second Vatican Council as potentially influencing long term events in both arenas Beaulieu s research is comprehensive and richly documented yet offers an accessible triangular inquiry into the mosque the manger and modernity By restoring a place at the table for Trinitarian Christianity alongside the engulfing monotheism of Islam and the alternative skepticism of Western rationalism this inquiry broadens the pallet of inter religious and intercultural contact points Beyond Secularism and Jihad provides balanced attention to the differences as well as the similarities between Christianity Islam and modernity An emerging theme is natural law which is universal and intrinsic to all mankind and not confined to competing theologies Neglected in the West that it helped create natural law might contribute to the needed grammar for dialogue between the citizens in the West and the followers of Islam      Animals in Islamic Tradition and Muslim Cultures Richard Foltz,2014-10-01 From references to animals in the Qu ran to modern day websites on Islamic vegetarianism Richard C Foltz presents the first comprehensive study of the role of animals in the Islamic tradition Drawing on a wide range of sources including classic mysticism Foltz traces the development of Islamic attitudes towards animals over the centuries and confronts the key ethical questions facing Muslims today Modern advances in science and technology and the increasing prevalence of techniques such as bioengineering and factory farming have forced many religions to reassess their traditional notions of animal rights and as Foltz demonstrates Muslims are increasingly asking their tradition to respond to such issues Scholarly yet accessible this is an original and informative contribution to Islamic studies and will be essential reading for anyone Muslim or non Muslim with an interest in the significance of religion and culture for the contemporary animal rights debate      *Shattered* Syed Abbas Rizvi,S. Khasim T. Rizvi,2008-09 The Middle East has become a flash point for extremism and intrareligious violence as well as a cultural debacle of women s rights From the current derelict state of women s rights in the Arab world to the current sectarian divide in Iraq and the ongoing hatred between Shia and Sunni Muslims this book demonstrates the genesis of the collapse of the original Islam of Mohammad and the core of the split of these two sects of Islam while also looking deep within one of the most powerful struggles for women s rights the struggle led by Fatima the daughter of Mohammad that took place in the early days of the religion Shattered explores what took place during and after these events It presents a unique history of the Muslim world touching on the ramifications of Fatima s stand for Women s rights and the seeds of dissension planted at the death of Mohammad while touching on all of the crucial events from past to present that have turned horribly violent as a result of simple misinterpretations of the Quran and traditions by extremist groups such as those responsible for the horrible terrorist actions that took place on 9 11 This book will provide an in depth analysis of some crucial movements within Islam that have nurtured the hate drawn from hundreds of years of history as well
