Alike And Different Careers For All:

Not All Twins Are Alike Barbara Klein, 2003-02-28 Even twins are unique Most people idealize twins fantasizing a close perpetually loving relationship Yet Klein herself an identical twin demonstrates that twins have complicated and intense relationships that range from over identification or excessive closeness to profound estrangement and conflict Most twins who are raised as individuals deal with the significant emotional pain of separation in adolescence or young adulthood yet as mature adults can come to love and respect each other as individuals As Klein makes clear the parenting that twins receive as infants and young children affects the relationships that they have with one another and with the world they choose to function in Because parenting is a critical determinant of psychological well being it should be treated as a serious but manageable challenge This book is a must read for twins their parents and scholars students and other researchers and professionals dealing with mental health and child development From Modernism to Postmodernism Jennifer

Ashton, 2006-01-05 In this overview of twentieth century American poetry Jennifer Ashton examines the relationship between modernist and postmodernist American poetics Ashton moves between the iconic figures of American modernism Stein Williams Pound and developments in contemporary American poetry to show how contemporary poetics specially the school known as language poetry have attempted to redefine the modernist legacy She explores the complex currents of poetic and intellectual interest that connect contemporary poets with their modernist forebears The works of poets such as Gertrude Stein and John Ashbery are explained and analysed in detail This major account of the key themes in twentieth century poetry and poetics develops important ways to read both modernist and postmodernist poetry through their similarities as well as their differences It will be of interest to all working in American literature to modernists and to scholars of twentieth century poetry An Administrator's Guide to Better Teacher Mentoring William L. Fibkins, 2011-01-16 This book address a

major gap in the current mentoring programs at the secondary level Staff development resources are often concentrated on helping new teachers be successful in their early school experience Yes a good idea but a limited vision Meanwhile many veteran teachers go without the mentoring assistance they need to be effective classroom teachers While a few become mentors themselves many veteran teachers just settle slowly giving up and become at risk of failure burnout and thinking only of retirement This book is a call to school superintendents building administrators department chairs school board members union leaders parent leaders and teacher educators to address the need to provide ongoing mentoring for all teachers Organizations Alike and Unlike (RLE: Organizations) Cornelis Lammers, David Hickson, 2013-08-21 This volume

contrasts the life and problems of organizations in many parts of the world and highlights the differences between those societies as reflected in their different institutional sectors such as manufacturing commerce social services and government administration In so doing the book contributes to the theoretical foundations of the sociology of organizations by revealing previously unseen relationships between societies and institutions offering an original synthesis of available research
