Lagat, 2019-03-15 This book covers the contribution of Christianity in the care stewardship and management of the environment It uses ideas from the logical position of a Christian created in God s image redeemed by God and given responsibility to subdue and keep the earth arguing that a Christian has the responsibility and mandate to care for the environment It shows that successful stewardship happens when a Christian is aware of God s intention for creation exerts effort to increase it and is expected to give an account to God for their actions toward it The book presents environmental concerns in Kenya as an opportunity for change describing situations and why they could become opportunities for change Seven worldviews are presented that discourage Christians who want to do environmental stewardship and Christian theological doctrines are discussed that could be used to cause ecclesial participation in environmental stewardship Finally the book envisions a Conserving Church with specific activities the church can do to successfully influence people to do environmental stewardship **Presbyterian Survey**, 1974 **A Stewardship Scrapbook** William R. Phillippe, 1999-01-01 This book represents the very best of William Phillippe s lifelong stewardship

Hudnut-Beumler, 2007-03-05 Every day of the week in contemporary America and especially on Sundays people raise money for their religious enterprises for clergy educators buildings charity youth oriented work and more In a fascinating look into the economics of American Protestantism James Hudnut Beumler examines how churches have raised and spent money from colonial times to the present and considers what these practices say about both religion and American culture After the constitutional separation of church and state was put in force Hudnut Beumler explains clergy salaries had to be collected exclusively from the congregation without recourse to public funds In adapting to this change Protestants forged a new model that came to be followed in one way or another by virtually all religious organizations in the country Clergy repeatedly invoked God ecclesiastical tradition and scriptural evidence to promote giving to the churches they served Hudnut Beumler contends that paying for earthly good works done in the name of God has proved highly compatible with American ideas of enterprise materialism and individualism The financial choices Protestants have made throughout history how money was given expended or even withheld have reflected changing conceptions of what the religious enterprise is all about Hudnut Beumler tells that story for the first time **Continent** , 1923
