Arriving Where We Started:

Arriving Where We Started Edwin M. Hartman, 2020-10-22 Edwin Hartman offers an account of his intellectual journey from Aristotle to organization theory to business ethics to an Aristotelian approach to business ethics Aristotle's work in metaphysics and psychology offers some insights into the explanation of behavior Central to this sort of explanation is characteristically human rationality Central to successful organizations is characteristically human sociability That human beings are by nature rational and sociable is the basis of Aristotle's ethics Though a modern organization is not a polis in Aristotle's sense it has good reason to treat people as rational and sociable on the whole and thereby to preserve the organization as a commons of people linked by something much like Aristotle's account of strong friendship Organizations that are successful in this respect particularly those that deal with a nationally diverse workforce may offer a far reaching and attractive model

Becoming a Leader Is Becoming Yourself Russ S. Moxley, 2015-07-04 People yearn for leaders who are authentic who show their own face and not a game face who find and use their voice in appropriate ways and act with a tangible sense of integrity Those who engage in the process of leadership each of us at some point want to do so as our true self But staying true to one's self is not easy We are continually moving in and out of authenticity We are present one moment and absent the next We often say yes when we want to say no We act from our core values some of the time but give them a wink when the heat is on There is no formula for being integral and authentic Becoming and being ourselves requires confidence and courage Drawing on the author's 40 years in leadership training this book discusses the things we can do along the way recognizing our strengths and limitations speaking truth to power trusting our companions as we strive to fulfill our leadership potential Instructors considering this book for use in a course may request an examination copy here

Eliot and Prejudice Christopher Ricks,1988-01-01 **Soulmates** Juliana Geran Pilon,2011-12-31 In Soulmates Resurrecting Eve Juliana Geran Pilon argues for a return to an egalitarian view of men and women found in the original Genesis narrative as reflected through Judaism Christianity and Islam In each of these Abrahamic traditions it was understood that man and woman were created to be soulmates in God s image equal despite their different functions within society Pilon writes that this original message has gradually been distorted with disastrous effect Any hope for an ennobling human community begins by resurrecting Eve as an equal partner to Adam The work examines the Biblical creation narrative comparing it to Greek and other ancient mythologies Pilon explains how the disturbing association of woman with sin and death led to Eve s demise as Adam s equal The final section of the work deals with the Goddess myth love and marriage in early religious narratives and modern man s search for his soul no less than for a soulmate The book at its core is a meditation on the relationship between men and women but also among human beings The resurrection of Eve is indispensable to attaining a true appreciation of love and faith Pilon uses religious texts expert commentary and various works of fiction poetry and psychology to make her argument come alive The work is strengthened by the writing style alternately poetic and humorous and a clear and illuminating progression of ideas Its emphasis on reconciliation and understanding and its post feminist outlook will find a receptive audience **Jewish Intelligence, and Monthly Account of the Proceedings of the London Society for Promoting Christianity Amongst the Jews** ,1836
