Arrow Of Desire:

Arrows of Desire William Gaunt, 1956 *Reading Theatre* Anne Ubersfeld, 1999-01-01 Ubersfeld show how formal analysis can enrich the work of theatre practitioners and offers a reading of the symbolic structures of stage space and time as well as opening up multiple possibilities for interpreting a play's line of action To Watch Theatre Rachel Fensham, 2009 This book is about watching theatre and how to utilise corporeal semiotics to read genres of contemporary theatre. It suggests that three key concepts interact: genre, the formal term that structures theatricality including the textual grammar of a dramatic work, its performance style, theatrical frame and mode of rhetorical address, corporeality, an assemblage of the troubling physical work of the actors, the figurative forms in the text and the ambivalent bodies of the spectators and performance, the presenting of theatre as symbolic action in the social world. In order to develop new models of embodied spectatorship, these essays examine canonical productions of *Medea*, *King Lear*, *Miss Julie*, *Genesi*, *The Museum of Sleep* directed by Deborah Warner, Barrie Kosky, Anne Bogart and Romeo Castellucci. With close attention to bodies and texts in performance, the book argues that to watch theatre is an intimate yet political attunement to processes of human transfiguration. It concludes by offering a reinvigorated perspective on tragedy and tragic experience in the theatre. **Hell** Timothy Morton, 2024-06-07 Hell on earth is real. The toxic fusion of big oil, Evangelical Christianity and white supremacy has ignited a worldwide inferno more phantasmagoric than anything William Blake could dream up and more cataclysmic than we can fathom. Escaping global warming hell, this revelatory book shows that requires a radical mystical marriage of Christianity and biology that awakens a future beyond white male savagery. Timothy Morton argues that there is an unexpected yet profound relationship between religion and ecology that can guide a planet-scale response to the climate crisis. Spiritual and mystical feelings have a deep resonance with ecological thinking and together they provide the resources environmentalism desperately needs in this time of climate emergency. Morton finds solutions in a radical revaluation of Christianity, furnishing ecological politics with a language of mercy and forgiveness that draws from Christian traditions without bringing along their baggage. They call for a global environmental movement that fuses ecology and mysticism and puts race and gender front and center. This nonviolent resistance can stage an all-out assault on the ultimate Satanic mill, the concept of master and slave manifesting today in white supremacy, patriarchy and environmental destruction. Passionate, erudite and playful, Hell takes readers on a full-color journey into the contemporary underworld and offers a surprising vision of salvation. **Eros** Bruce S Thornton, 2018-02-12 Eros: The Myth of Ancient Greek Sexuality is a controversial book that lays bare the meanings Greeks gave to sex. Contrary to the romantic idealization of sex dominating our culture, the Greeks saw eros as a powerful force of nature, potentially dangerous and in need of control by society. Eros, the Destroyer, not Cupid the Insipid, is what fired the Greek imagination. The destructiveness of eros can be seen in Greek imagery and metaphor and in their attitudes toward women and homosexuals. Images of love as fire, disease, storms, insanity and violence. Top 40 song clichés for us locate eros.

among the unpredictable and deadly forces of nature The beautiful Aphrodite embodies the alluring danger of sex and femmes fatales like Pandora and Helen represent the risky charms of female sexuality And homosexuality typifies for the Greeks the frightening power of an indiscriminate appetite that threatens the stability of culture itself In *Eros The Myth of Ancient Greek Sexuality* Bruce Thornton offers a uniquely sweeping and comprehensive account of ancient sexuality free of currently fashionable theoretical jargon and pretensions In its conclusions the book challenges the distortions of much recent scholarship on Greek sexuality And throughout it links the wary attitudes of the Greeks to our present day concerns about love sex and family What we see finally are the origins of some of our own views as well as a vision of sexuality that is perhaps more honest and mature than our own dangerous illusions *Lacan Reframed* Steven Z. Levine, 2011-07-26 Are your students baffled by Baudrillard Dazed by Deleuze Confused by Kristeva Other beginners guides can feel as impenetrable as the original texts to students who think in images *Contemporary Thinkers Reframed* instead uses the language of the arts to explore the usefulness in practice of complex ideas Short contemporary and accessible these lively books utilise actual examples of artworks films television shows works of architecture fashion and even computer games to explain and explore the work of the most commonly taught thinkers Conceived specifically for the visually minded the series will prove invaluable to students right across the visual arts Single handedly responsible for the influential and ominous notion of the gaze quoted by everybody yet fully understood by few Lacan's work can be difficult to grasp Going back to basics this introduction guides the reader through Lacan's key concepts by looking at art from the Mona Lisa through to Bridget Riley's paintings and by looking afresh at key works discussed by Lacan himself from Holbein's famous *The Ambassadors* to Velazquez's *Las Meninas* Making sense of Lacan's sometimes convoluted style this highly readable introduction to one of the most frequently quoted thinkers also explores the reasons why human beings make and look at art **God of Desire** Catherine Benton, 2006-06-01 Presents Kamadeva the Hindu god of desire in tales art and ritual Also covers Kamadeva's appearance in Buddhist lore

Connections Stephen P. Reyna, 2002 This groundbreaking work rethinks the relationship between psychology cognitive neuroscience and anthropology and offers a new way of understanding the human condition Archery and the Human Condition in Lacan, the Greeks, and Nietzsche Matthew P. Meyer, 2019-10-18 Archery and the Human Condition in Lacan the Greeks and Nietzsche showcases archery as a metaphor for the fundamental tension at the heart of the human condition Matthew Meyer develops a theory of subjectivity that incorporates elements from psychoanalysis Greek literature philosophy and Zen archery bringing together allusions to the bow and archery made by Sophocles Homer Heraclitus Aristotle Lacan Nietzsche and Awa Kenzo The book weaves together a psychoanalytic account of infant development the obstacles faced by Greek heroes and virtue theory to explore the tension between the forces inside and outside of the human that subject the human being to conditions beyond its control Meyer develops this side of the tension through Jacques Lacan's theory of human drive illustrating the three parts of drive theory through application to three works in Greek literature and philosophy

He The second part of the text describes the other side of this fundamental tension the ability to control drive impulses through Aristotle s use of the archer as a metaphor in his virtue theory The book illustrates the productive nature of this tension through an analysis of Friedrich Nietzsche s ideas about drives and sublimation especially his contention that the highest types are like the bow with the greatest tension **The Rishukyō** Amoghavajra,1991
