Arms And The Self War The Military And Autobiographical Writing:

Arms and the Self Alex Vernon, 2005 With its wide range of primary texts to demonstrate the many conflicts author participants and interpretive perspectives *Arms and the Self* provides an eclectic suggestive perspective on this complex and varied field With contributing authors such as Lynn Z Bloom Margaretta Jolly Robert Lawson Peebles and Robert Shenk the critical essays extend from Xenophon's memoir of his two years marching with the mercenaries of the Persian Prince Cyrus through Canadian accounts of the Boer War and American civilian women's narratives of confinement in WWII Japanese internment camps to Vietnam veterans online testimonials and post Persian Gulf War memoirs written as management primers Pub desc

Nursing the English from plague to Peterloo, 1660-1820 Alannah Tomkins, 2025-01-21 This book studies the negative stereotypes around the women who worked as sick nurses in this period and contrasts them with the lived experience of both domestic and institutional nursing staff Furthermore it integrates nursing by men into the broader history of care as a constant if little recognised presence It finds that women and men undertook caring work to the best of their ability and often performed well despite multiple threats to nurse reputations on the grounds of gender norms and social status Chapters consider nursing in the home in general hospitals in specialist institutions like the Royal Chelsea Hospital and asylums plus during wartime illuminated by multiple accounts of individual nurses In these settings it employs the sociological concept of dirty work to contextualise the challenges to nurses and nursing identities

On Military Memoirs L.H.E. (Esmeralda) Kleinreesink, 2016-10-11 Winner of the Caforio prize for the best book in armed forces and civil military relations published between 2015 and 2016 In *On Military Memoirs* Esmeralda Kleinreesink offers insight into military books who were their writers and publishers what were their plots and what motives did their authors have for writing them Every Afghanistan war autobiography published in the US the UK Germany Canada and the Netherlands between 2001 and 2010 is compared quantitatively and qualitatively *On Military Memoirs* shows that soldier authors are a special breed that self published books still cater to different markets than traditionally published ones that cultural differences are clearly visible between warrior nations and non warrior nations that not every contemporary memoir is a disillusionment story and that writing is serious business for soldiers wanting to change the world The book provides an innovative example of how to use interdisciplinary mixed method cross cultural research to analyse egodocuments

The Military Memoir and Romantic Literary Culture, 1780-1835 Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the

nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture s wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period s wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier s personal suffering While the focus on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national war and functioned as a central component in a national commemoration of war Sexing the Soldier Rachel

Woodward, Trish Winter, 2007-08-07 Sexing the Soldier takes a critical look at how gender what it means to be a man or a woman is understood within the contemporary British Army and the political and practical consequences of this Drawing on original research this informative volume looks at the history and structure of the British Army as a masculine institution personnel policies which deal with gender issues the construction of ideas about military masculinities and femininities within the Army media representations of the figure of the soldier Using case studies ranging from the exclusion of women from direct combat posts to the issues surrounding bullying this book argues that we need a fuller more nuanced assessment of gender issues in the military that moves beyond the simplistic ideas about women s and men s natural capacities for soldiering **Political and Military Sociology** Neovi M. Karakatsanis, Jonathan Swarts, 2015-11-09 This volume

encompasses a wide range of empirical research on a variety of topics that are related by their focus on the importance of attitudes culture and perceptions The significance of public attitudes the impact of cultural norms and the perceptions of military officers and civilians are all analyzed in the seven articles in this latest edition of *Political and Military Sociology* The first essay asserts that military memoirs should be taken seriously as objects of scholarly analysis Using the Minorities at Risk Dataset the second article examines the effects of globalization on ethnic conflict in 106 countries from 1985 to 2002 The next focuses on Canadian attitudes toward military expenditures following the September 11th terrorist attacks The fourth examines the attitudes of Texans toward recent US wars the draft and military service generally The fifth essay explores the role of the media in promoting democracy and democratic attitudes in southern Africa Using survey data the following article addresses the extent to which higher education promotes more tolerant attitudes among Israeli Jews toward Israeli Arabs The volume concludes with a study of US warrant officers that shows how the rank has evolved over time

American Military History Daniel K. Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in

chronologies bibliographies biographical dictionaries indexes journals abstracts glossaries and encyclopedias each accompanied by a brief descriptive annotation This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries government documents collections military and intelligence agency libraries and historical societies and museums Reconstructing Conflict Scott Kirsch, Colin Flint, 2016-04-08

Reconstruction the rebuilding of state economy culture and society in the wake of war is a powerful idea and a profoundly transformative one From the refashioning of new landscapes in bombed out cities and towns to the reframing of national identities to accommodate changed historical narratives the term has become synonymous with notions of post conflict society it draws much of its rhetorical power from the neat demarcation both spatially and temporally between war and peace The reality is far more complex In this volume reconstruction is identified as a process of conflict and of militarized power not something that clearly demarcates a post war period of peace Kirsch and Flint bring together an internationally diverse range of studies by leading scholars to examine how periods of war and other forms of political violence have been justified as processes of necessary and valid reconstruction as well as the role of war in catalyzing the construction of new political institutions and destroying old regimes Challenging the false dichotomy between war and peace this book explores instead the ways that war and peace are mutually constituted in the creation of historically specific geographies and geographical knowledges **The Palgrave International Handbook of Gender and the Military** Rachel

Woodward, Claire Duncanson, 2017-06-27 The Palgrave International Handbook of Gender and the Military provides a comprehensive overview of the multiple ways in which gender and militaries connect International and multi disciplinary in scope this edited volume provides authoritative accounts of the many intersections through which militaries issues and military forces are shaped by gender The chapters provide detailed accounts of key issues informed by examples from original research in a wealth of different national contexts This Handbook includes coverage of conceptual approaches to the study of gender and militaries gender and the organisation of state military forces gender as it pertains to military forces in action transitions and transgressions within militaries gender and non state military forces and gender in representations of military personnel and practices With contributions from a range of both established and early career scholars The Palgrave International Handbook of Gender and the Military is an essential guide to current debates on gender and contemporary military issues **Mass Casualties** Michael Anthony, 2009-09-18

From the Introduction Look around the drill sergeant said In a few years or even a few months several of you will be dead Some of you will be severely wounded or so badly mutilated that your own mother can't stand the sight of you And for the real unlucky ones you will come home so emotionally disfigured that you wish you had died over there It was Week 7 of Basic Training 18 years old and I was preparing myself to die They say the Army makes a man out of you but for 18 year old SPC Michael Anthony that fabled rite of passage proved a very dark journey After soliciting his parents approval to enlist at only 17 Anthony began his journey with an unshakeable faith in the

military born of his family's long tradition of service But when thrust into a medical unit of misfits as lost as he was SPC Anthony not only witnessed the unspeakable horror of war but the undeniable misconduct of the military firsthand Everything he ever believed in dissolved forcing Anthony to rethink his loyalties and ultimately risk his career and his freedom to challenge the military he had so firmly believed in This searing memoir chronicles the iconic experiences that changed one young soldier forever A seasoned veteran before the age of twenty one he faced the truth about the war and himself in this shocking and unprecedented eyewitness account
