pathbreaking study of Yagwoia cosmological concepts In *Imacoqwa s Arrow* Jadran Mimica draws on decades of field research to bring us a rich ethnographic account of myth and meaning in the lifeworlds of the Yagwoia of Papua New Guinea He focuses especially on the relations of the sun and the moon in Yagwoia understandings of the universe and their own place within it This is classic terrain in Melanesian ethnography but Mimica does much more than add to the archive of anthropological accounts of the significance of the sun and the moon for peoples of this part of the world With extraordinary rigor and reflexivity he grounds his understanding of Yagwoia concepts in psychoanalytic and phenomenological methods that afford a radically new and revealing translation of these seminal themes in Melanesian mythology and its poetics This is a major contribution to the hermeneutics of ethnographic translation and theorization **The Arrow Of Time** Roger

Highfield,Peter Coveney,2015-06-30 In our century the subject of time has become an area of serious inquiry for science Theories that contain time as a simple quantity form the basis of our understanding of many scientific disciplines yet the debate rages on why does there seem to be a direction to time an arrow of time pointing from past to future In this

authoritative and accessible Sunday Times bestseller physical chemist Dr Peter Coveney and award winning science journalist Dr Roger Highfield demonstrate that the common sense view of time agrees with the most advanced scientific theory Time does in fact move like an arrow shooting forward into what is genuinely unknown leaving the past immutably behind The authors make their case by exploring three centuries of science offering bold reinterpretations of Newton s mechanics Einstein s special and general theories of relativity quantum mechanics and advancing the insights of chaos theory In their voyage through science the authors link apparently irreconcilable subjects from Einstein s obsession with causality to chaos theory from Marvell s winged chariot to that Monday morning feeling Finally drawing together the various interpretations of time they describe a novel way to give it a sense of direction And they call for a new fundamental theory to take account of the Arrow of Time Foreword by Ilya Prigogine Nobel laureate **Time's Arrow, Time's Cycle** Stephen Jay Gould,1988-01-01 Stephen Jay Gould s subject is nothing less than geology s signal contribution to human thought the discovery of deep time the vastness of earth s history a history so ancient that we can comprehend it only as metaphor

*Earth Under Fire* Paul A. LaViolette,2005-10-25 In *Earth Under Fire* Paul LaViolette investigates the connection between ancient world catastrophe myths and modern scientific evidence of a galactic destruction cycle demonstrating how past civilizations accurately recorded the causes of these cataclysmic events knowledge of which may be crucial for the human race to survive the next catastrophic superwave cycle Time's Arrow and Evolution Harold Francis Blum,2015-12-08 In a book that has become a milestone of scientific writing Dr Blum uses time s arrow the second law of thermodynamics as a key concept to show how the nature and evolution of the nonliving world place limits on the nature and evolution of life He seeks to show that from the beginning of the universe physical and chemical laws have inexorably channeled the course of evolution so that possibilities were already limited when life first emerged Originally published in 1951 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *May Earth Rise* Holly Taylor,2009-10-01 In this conclusion to a powerful saga cruel deprivation and a full scale conflict bring the Y Dawnus to the brink of annihilation In the land of Kymru High King Arthur has designated the talented pillars of society as the Gifted These Gifted peoples are essential to his empire When they are taken captive by the Corianans King Arthur confronts his mortal enemy Havgan the Warleader a formidable opponent backed by menacing powers that threaten to end the magic in Kymru Forced to enter a treacherous realm where captives are collared and sacrificed where ruthless territorial boundaries are drawn and enforced and where death by poisoning and torture are the norm King Arthur and those loyal to him must fight to save their way of life and to liberate the Gifted In this captivating and stirring

fantasy only the strongest survive in the pursuit of freedom Only the deepest passion will drive away the evil that lurks in this mystical land of fragile kingdoms powerful warlords and ancient magic May Earth Rise Holly,2008-03-01 Paul Campbell has fought the Turks Germans and the occasional rogue crocodile A confirmed bachelor veteran of the Great War and Jack of all Trades in the rough country of Western Australia he is free to live the rest of his life in peace He has only one goal to make life easier on the residents of the Outback by flying medicine supplies and the occasional letter to those who live in Australia s sprawling Interior That is until a wounded woman lands on his doorstep begging for a gentle hand and a warm kiss even if she doesn t know it yet A new doctor Helen Stanwood leaves the relative comfort of her San Francisco home with a mission She will abandon and forget the pain of her former existence by devoting herself to helping those in need But when she arrives in Australia she is faced with the realization that she can t run away from herself her past or The Flyer **Arrow of Chaos** Ira Livingston,1997-01-01 Traces the relationship between the texts and obsessions of the Romantic and postmodern periods Arrow of Chaos navigates through postmodern coordinates such as chaos theory and fractals as well as literary and cultural theory mapping the ongoing mutations of Romanticism in postmodern culture and the inklings of the postmodern already at work in Romanticism The result is a chaology of knowledge a study of the logic of chaos Ira Livingston s reading of Romantic and postmodern texts from poetic political and scientific works to films and dreams reveal surprising code shiftings within and among them The resilience of Romanticism Livingston argues lies not in enforcing a single master narrative but in orchestrating these fluxes Using theory and critical readings alongside a series of illustrative vignettes Livingston portrays cultural history as a dynamic entity conserved by the continually renewed demands of order and disorder By modeling ways to think through chaos and through the mutual deformations of Romanticism and postmodernity Arrow of Chaos contributes to alternative alignments of knowledge across time and technique
