Art De Chirico:

De Chirico. Ediz. inglese Magdalena Holzhey, 2005 Greek born Italian painter Giorgio De Chirico 1888 1978 was hugely influential in the early years of the Surrealist movement His paintings during the teens in Paris where he moved in 1911 caused such a stir that such important figures as Picasso and Paul Eluard immediately praised them This phase of his work which he later termed *pittura metafisica* metaphysical painting was marked by dramatic compositions involving sharp perspective striking shadows geometrical planes voids of space and a general feeling of anxiety and loneliness the sense of absurdity evoked by the mannequin like figures in almost nightmarish landscapes seemed to suggest a Freudian expression of the unconscious After 1930 De Chirico turned to a more classical style of painting and continued in the same vein for the rest of his career his later work was widely criticized especially by the Surrealists who had so admired his early paintings

Giorgio de Chirico Wieland Schmied, 2002 A study of the art of Giorgio de Chirico inventor of a symbolic style which had a strong influence on 20th century art this text focuses on the artist's mysterious representations of the human form

Giorgio de Chirico and America Giorgio De Chirico, 1996 *Giorgio de Chirico* Victoria Noel-Johnson, 2019-07-25 An innovative analysis of the artistic poetics of the master of metaphysical painting Through a selection of important works made during this master's career this volume aims to conduct a critical revision of the artist's complex practice for the centenary of his so called *volte face* in 1919 the year he was criticised for leaving metaphysical painting 1910 1918 in favour of styles and techniques inspired by Classicism and the grand masters Edited by the most important experts of De Chirico *The Face of Metaphysics* promotes an innovative interpretation of the artist's oeuvre both metaphysical where the traditional confines of linear time and space are replaced by the doctrine of cyclical coexistence an arrangement according to themes and not chronology underlines the idea that despite the many changes in style technique and subject composition and colour tone all of De Chirico's works may offer tangible visions of the intangible philosophical concept of Metaphysics advanced by Nietzsche in the late 1800s constant metaphysics Divided into six sections The Eternal Return Metaphysical Exteriors Metaphysical Protagonists Metaphysical Interiors Metaphysical nature

Giorgio de Chirico and the Metaphysical City Ara H. Merjian, 2014-04-01 Painted in Paris on the eve of World War One the Metaphysical cityscapes of Giorgio de Chirico 1888 1978 redirected the course of modernist painting and the modern architectural imagination alike Giorgio de Chirico and the Metaphysical City examines the two most salient dimensions of the artist s early imagery its representations of architectural space and its sustained engagement with the philosophy of Friedrich Nietzsche Centering upon a single painting from 1914 deemed by the painter the fatal year each chapter examines why and how de Chirico s self declared Nietzschean method takes architecture as its pictorial means and metaphor The first full length study in English to focus on the painter s seminal work from pre war Paris the book places de Chirico s literary images back in the context of the city s avant garde particularly the circle of Guillaume Apollinaire Merjian s study sheds light on one of the most influential and least understood figures in 20th century aesthetics while also contributing to an understanding of Nietzsche s paradoxical consequences for modernism *Art of Enigma* Keala Jewell, 2010-11-01 **De Chirico** Emily Braun, 2014 The unexpected encounter of a rubber glove a green ball and the head from the classical statue gives rise to one of the most compelling paintings in the history of modernist art Giorgio de Chirico s Song of Love 1914 This uncanny image exemplifies what de Chirico called metaphysical painting which creates a disturbing sense of unreality outside the usual logics of space and time through the novel depiction of ordinary things Emily Braun s essay explores the work s enigmatic motifs showing how their roots range from the ancient culture of the Mediterranean through the commercial scenarios de Chirico observed in the streets of Paris in the years around World War I to the work of

the avant garde painters and poets of the time The Song of Love continues to captivate viewers as de Chirico intended even a century after it was made Back cover
