second half of the twentieth century and contribute to a growing academic field in postwar Brazilian and Latin American art history Contributions to this anthology examine the development of modernist ideas that flourished in Brazil during a controversial period interspersed by dictatorial regimes The global aspect of Brazilian art is especially evident in these studies presenting the relational complexity of their subjects as transcultural transnational actors while simultaneously contributing to a growing increasingly nuanced understanding of visual and material culture performance and criticism in Brazil Form and Feeling continues the important process of re analyzing the intersections of Concretism and Neo concretism arguing for greater affinities between the primary and lesser known cast of characters while equally redistributing the strict geographical divisions of S o Paulo and Rio de Janeiro This anthology broadly situates this extraordinary period of artistic experimentation in direct relationship to contemporary factors such as psychoanalysis educational systems poetry politics and feminism It crafts innovative relationships about the constructive hierarchies of form and space poetry and painting and mathematics and philosophy thus engendering new positions for a deeply ensconced period in Brazilian history
