Art Of Authorship:

The Art of Authorship George Bainton, 1890 The Art of Authorship George Bainton, 2017-02-17 From the INTRODUCTION Some time since I was requested by a number of young men to address them upon the art of composition and effective public speech Thinking how best to make such a topic interesting as well as instructive I resolved to illustrate the lecture by securing if at all possible personal experiences and counsels from a few of the leading writers and speakers of our day Appealing to several well known authors and orators and receiving valued and helpful replies I was induced to extend the number of such personal testimonies with the idea of giving them to those for whom they were designed in a more permanent form than an address spoken from the lecture platform This volume is the outcome so far as the above mentioned communications bear directly upon the art of effective written composition I must ask my readers to remember that the experiences and methods of those authors only are here quoted who have personally contributed at my request their reminiscences and advice If therefore any gratitude should be felt for pleasure or profit experienced by a perusal of these pages it must be accorded to those without whose aid and generous acquiescence the book could never have been written Several names of eminent living writers will not be found here In most instances their help has been requested but has either been withheld or has proved insufficient for the purpose required Accounts of their methods might have been gleaned from other sources but these would have broken the harmony of the book which contains only those experiences and counsels written for the purposes above stated by the authors themselves In dealing with so large a number of communications of so varied a character as those which compose the bulk of this volume it has been impossible to classify them with any approach to consistency I have used them as best I could without injury to their original form to illustrate and enforce several points of interest which every student of expressive written composition may with advantage consider As example must be always better than precept statements of how our best known authors learned to write or what influences aided them the most in preparing for and finding their life work together with whatever counsel drawn from their own experience they may be disposed to give to others cannot fail to be both instructive and deeply interesting He that walketh with wise men shall be wise The Art of Authorship; Literary Reminiscences, Methods of Work, and Advice to Young Beginners, Personally Contributed by Leading Authors of the Day George Bainton, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1891 edition Excerpt composing something Symonds in verse or prose for my own pleasure while I also spent great pains upon a weekly essay for my tutor Professor Jowett His observations and the criticisms my father occasionally gave me were extremely helpful They checked my tendency to a vague and sentimental rhetoric Great facility of expression has always been my bane combined with a natural partiality for sensuous imagery I attribute any degree of strength and purity of style to which I may subsequently have attained in no small measure 1 to the composition of essays on very

metaphysical topics for so good a critic as Professor Jowett 2 to the habit of translation from the Greek I was fortunate in enjoying the intimate friendship of Professor Conington who also helped me by sound advice His own style was clear and vigorous without affectation He laughed me out of many of my conceits and prettinesses All this while I kept on composing English verses the style modelled by sympathy rather than calculation upon Tennyson and Keats But Conington was convinced that I could not be a poet and his discouraging influence prevented me from J A studying poetry with system The only wrong Symonds direction I am aware of having received from any one was from him when he once said Your forte lies in poetical prose I took the hint too literally and when I felt inclined to write verse used often to compel myself to prose expression the result of which was that I got into a hybrid habit of writing which has given offence to many of my critics I ought to add that from the age of eighteen to twenty four I kept a diary chiefly for the description of impressions made on me by landscapes and works of art This I am quite sure helped to
