Lives of the Gods: Divinity in Maya Art Joanne Pillsbury, Oswaldo Chinchilla Mazariegos, James A. Doyle, 2022-11-14 An introduction to the complex stories of Mesoamerican divinity through the carvings ceramics and metalwork of the Maya Classic period *Lives of the Gods* reveals how ancient Maya artists evoked a pantheon as rich and complex as the more familiar Greco Roman Hindu Buddhist and Egyptian deities Focusing on the period between A D 250 and 900 the authors show how this powerful cosmology informed some of the greatest creative achievements of Maya civilization **Maya Imagery, Architecture, and Activity** Maline D. Werness-Rude, Kaylee R. Spencer, 2015-05 *Maya Imagery Architecture and Activity* privileges art historical perspectives in addressing the ways the ancient Maya organized manipulated created interacted with and conceived of the world around them The Maya provide a particularly strong example of the ways in which the built and imaged environment are intentionally oriented relative to political religious economic and other spatial constructs In examining space the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces both concrete and abstract They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology archaeology geography and landscape architecture **The Beast Between** Matthew G.Looper, 2019-04-22 The white tailed deer had a prominent status in Maya civilization it was the most important wild animal food source at many inland Maya sites and also functioned as a major ceremonial symbol Offering an in depth semantic analysis of this imagery *The Beast Between* considers iconography hieroglyphic texts mythological discourses and ritual narratives to translate the significance and meaning of the vibrant metaphors expressed in a variety of artifacts depicting deer and hunting Charting the progression of deer as a key component of the Maya diet especially for elites to the coupling of deer and maize in the Maya worldview *The Beast Between* reveals a close and long term interdependence Not only are deer depicted naturalistically in hunting and ritual scenes but they are also ascribed with human attributes This rich imagery reflects the many ways in which deer hunting was linked to status sexuality and war as part of a deeper process to ensure the regeneration of both agriculture and ancestry Drawing on

Art and Society in a Highland Maya Community Allen J. Christenson, 2001-12-15 Allen J Christenson offers us in this wonderful book a testimony to contemporary Maya artistic creativity in the shadow of civil war natural disaster and rampant modernisation Trained in art history and thoroughly acquainted with the historical and modern ethnography of the Maya area Christenson chronicles in this beautifully illustrated work the reconstruction of the central altarpiece of the Maya Church of Tz utujil speaking Santiago Atitl n Guatemala The much loved colonial era shrine collapsed after a series of destructive earthquakes in the twentieth century Christenson s close friendship with the Ch vez brothers the native Maya artists who reconstructed the shrine in close consultation with village elders enables him to provide detailed exegesis of how this complex work of art translates into material form the theology and cosmology of the traditional Tz utujil Maya With the author s guidance we are taught to see this remarkable work of art as the Maya Christian cosmogram that it is Although it has the triptych form of a conventional Catholic altarpiece its iconography reveals a profoundly Maya narrative replete with sacred mountains and life giving caves with the whole articulated by a central axis mundi motif in the form of a sacred tree or maize plant ambiguity intended that is reminiscent of well known ancient Maya ideas Through Christenson s focused analysis of the iconography of this shrine we are able to see and understand almost firsthand how the modern Maya people of Santiago Atitl n have remembered the imagined universe of their ancestors and placed upon this sacred framework their received truths in time present Gary H Gossen Distinguished Professor Emeritus of Anthropology and Latin American Studies University at Albany SUNY Allen Christenson is Assistant Professor in the Department of Humanities Classics and Comparative Literature at Brigham Young University an engaging quietly intense book that is in part ethnography in part pre Columbian art history and in part a meditation on the nature of identity and cultural authenticity It records with diligence and grace the endurance and transformation of belief in the face of natural and political disaster Times Literary Supplement August 16 2002

Ancient Maya Art at Dumbarton Oaks Dumbarton Oaks, 2012 This introduction to Maya art is based on study of one of the most important collections in the United States assembled by Robert Woods Bliss between 1935 and 1962 The catalogue written by leading Maya scholars contains detailed analyses of specific works of art along with thematic essays situating them within the context of Maya culture

Unseen Art Claudia Brittenham, 2023-01-17 In Unseen Art Claudia Brittenham unravels one of the most puzzling phenomena in Mesoamerican art history why many of the objects that we view in museums today were once so difficult to see She examines the importance that ancient Mesoamerican people assigned to the process of making and enlivening the things we now call art as well as Mesoamerican understandings of sight as an especially godlike and elite power in order to trace a gradual evolution in the uses of secrecy and concealment from a communal practice that fostered social memory to a tool of imperial power Addressing some of the most charismatic of all Mesoamerican sculptures such as Olmec buried offerings Maya lintels and carvings on the undersides of Aztec sculptures

Brittenham shows that the creation of unseen art has important implications both for understanding status in ancient Mesoamerica and for analyzing art in the present Spanning nearly three thousand years of the Indigenous art of Mexico Guatemala Honduras and Belize Unseen Art connects the dots between vision power and inequality providing a critical perspective on our own way of looking
