Flowers After the Funeral Richard J. Cox, 2003 This is not a book I ever intended to write It emerged as I worked to understand the events of September 11 2001 It is my effort to make sense of my life and my profession during a difficult time My aim is to suggest that understanding information technology requires an understanding of society and its people and organizations especially as we look out over the wreckage of the high tech industry and the contradictory aims of government to protect and control us Richard Cox In this series of four essays Richard J Cox explores the social and professional ramifications of 9 11 on our information landscape Musing written on the first anniversary of the terrorist attacks looks back at a year of change and commemoration Reacting examines the impact of 9 11 on a department of information sciences Preparing is a cogent argument for the need to rethink current disaster and contingency planning practices Teaching focuses on the author s experiences developing and teaching a doctoral seminar on the role of the information professional in a post 9 11 world Miss Manners assures us that a floral arrangement is always appropriate no matter how much time has passed since the event Neither a cautionary tale nor practical advice *Flowers After the Funeral* is one such bouquet its simplicity and thoughtfulness are certain to provide both comfort and inspiration to its recipients
