Miettinen, 2015-08-03 This book exposes and fills a notable void in the educational content generally covered in modern schools of medicine It provides an introduction to the field at large in terms of content that is relevant for each of the specialties and subspecialties of medicine and to this end it addresses the modern counterpart of the Hippocratic philosophy that was at the root of the genesis of modern medicine The much needed but still missing introductory content for the interdisciplinary medical common provided in this book addresses mainly the most elementary concepts and principles of medicine Those concepts flow hierarchically from the essence of health and ill health illness for one and that of medicine for another both of these critically formulated and those principles are dictates of logic and ethics both specific to medicine While a modern physician is expected to be competent as a scholar in his her particular discipline of medicine study of this book is essential for the development of that competence for learning for example to make a tenable distinction between scientific medicine and medical science and between knowledge based medicine scientific and other and its opinion based substitutes evidence based and other To me it is astonishing and to medicine actually shameful that it has taken up to year 2015 before there is a work in which the essence of medicine is described and discussed J Steurer University of Zurich In this book Miettinen beautifully elucidates the concepts and principles of knowledge based diagnosis and prognosis within medicine Now after six decades of keen observation and study and critical reflection on medicine and medical research Miettinen in this book shares the fundamental understandings he has reached T J VanderWeele Harvard University The aim

of this book is admirable The composition of the book from the key concepts to logical and ethical principles is very clear and systematic I am convinced that this kind of book is needed I Niiniluoto University of Helsinki **The 1980 Guide to the Evaluation of Educational Experiences in the Armed Services: Coast Guard, Marine Corps, Navy, Dept. of Defense** American Council on Education,1980 The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services ,1984 **University of Michigan Official Publication** University of Michigan,1972 Each number is the catalogue of a specific school or college of the University **A Treatment of the Fundamental Principles of the Law of Contracts** Carl Frederick Helm,1914
