Basic Skills in English, Book 5, 1981 **Excel Practice** Alan Horsfield, 1998 **Excel Basic Skills Homework Book A**. S. Kalra, 1998 Excel Maths Addition and Subtraction for Year 5 and Year 6 is designed to help make students feel confident in the basic processes of addition and subtraction of whole numbers. It will help to satisfy the needs of slower learners and provide enrichment opportunity for quicker learners. Mathematics is a highly important subject in our school syllabus. It is the study of numbers which surround us everywhere in our lives. Computers and calculators have become the order of the day and are quite handy but the human mind still controls it. Whatever we put into the mind during the child's formative years is extremely important and most significant for the years to come. In this book your child will find eight self-contained carefully graded units: hundreds of practice exercises, quick questions and revision pages to stay in touch with previous work, diagnostic and mastery test to measure student's knowledge, a lift out answer section, Contents tables, language and mathematics diagnostic test, whole numbers addition of whole numbers to 999, subtraction of whole number to 999, order of operations with addition and subtraction, answers addition of whole numbers to 9999, subtraction of whole numbers to 9999, addition of whole numbers beyond 9999, subtraction of whole numbers beyond 9999, mastery test. **Excel Practice Selective Schools and Scholarship Tests** James A. Athanasou, 1997 Excel Test Skills Selective Schools and Scholarship Tests Years 5 & 6 is a comprehensive study guide for the selective schools and scholarship tests usually undertaken in Year 6. The book contains sections on all four types of tests: Maths, English, General Ability and Written Expression so students can prepare for exams with a minimum of stress and maximum results. In this book your child will find an introductory section on how best to prepare for selective schools and scholarship examinations, hundreds of practice questions for Mathematics, English, General Ability and Written Expression, answers to all multiple choice questions, explanations that outline the thinking skills required for each question, a complete trial test paper. **Excel Basic Skills Homework Book** Valentine Badham, Sandra Ruth Schuck, 1998 One in a series of work books for primary school students supporting the Excel Basic Skills Homework Books. Introduces year 3 to 6 students to the concepts and units involved in measuring time, length, area, volume and capacity, mass and temperature. Includes assessment tasks and a removable answer section. **Excel Basic Skills Homework Book** Gunter Schymkiw, 1998 Excel Maths Fractions, Decimals and Percentages is divided into four skill levels. Although the earlier units cover lower primary school work, older children who are having trouble will benefit from working through them. Children often have problems with fractions and decimals because they don't fully understand the basic skills involved. Once they have learnt these fundamental concepts, the student can work through the unit relevant to their Year level. Year 3 children having trouble with fractions should start at Unit 1. Year 4 children having trouble with equivalent fractions or decimals should start at Unit 2. Year 5 children having trouble with mixed fractions and equivalent fractions should start at Unit 3. Year 6 children who require revision of fractions, decimals and percentages

should complete Unit 4 The activities in all units of this book reflect current classroom practice There is a strong emphasis on understanding as new concepts are introduced Children's confidence will grow as they complete the practice examples In this book your child will find 8 self contained carefully graded units Hundreds of practice exercises Quick questions and revision pages to stay in touch with previous work Diagnostic and mastery tests to measure student's knowledge A lift out answer section
