Basic Sources Of The Judeo Christian Tra:

Introduction to Christian Theology Bradley Hanson, Students often find introductions to systematic theology too daunting or boring to wade through Here author and teacher Bradley Hanson offers an attractive accessible alternative for undergraduates Hanson draws on 16 years of successful teaching to create exciting and pertinent presentations of major topics illuminate options on key issues and nudge students to formulate a personal stance *Jewish-Christianity and the History of Judaism* Annette Yoshiko Reed, 2018-07-12 Jewish Christianity is a contested category in current research But for precisely this reason it may offer a powerful lens through which to rethink the history of Jewish Christian relations Traditionally Jewish Christianity has been studied as part of the origins and early diversity of Christianity Collecting revised versions of previously published articles together with new materials Annette Yoshiko Reed reconsiders Jewish Christianity in the context of Late Antiquity and in conversation with Jewish studies She brings further attention to understudied texts and traditions from Late Antiquity that do not fit neatly into present day notions of Christianity as distinct from Judaism In the process she uses these materials to probe the power and limits of our modern assumptions about religion and identity *A Dictionary of the Jewish-Christian Dialogue* Leon Klenicki, Geoffrey Wigoder, 1995 This is an invaluable aid in helping readers become better acquainted with key issues involved in the relationship between Judaism and Christianity It brings together significant discussions of major theological and religious topics that are an integral part of the faith dialogue between Jews and Christians Each topic is treated in two separate essays one by a Christian scholar the other by a Jewish scholar and points of agreement and decisive differences stand out clearly **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Hebrew Gospel and the Development of the Synoptic Tradition** James R. Edwards, 2009-10-16 This book offers a new explanation of the development of the first three Gospels based on a careful examination of both patristic testimony to the Hebrew Gospel and internal evidence in the canonical Gospels themselves James Edwards breaks new ground and challenges assumptions that have long been held in the New Testament guild but actually lack solid evidence *The Routledge Companion to Islamic Philosophy* Richard C. Taylor, Luis Xavier López-Farjeat, 2015-08-20 This valuable reference work synthesizes and elucidates traditional themes and issues in Islamic philosophy as well as prominent topics emerging from the last twenty years of scholarship Written for a wide readership of students and scholars The Routledge Companion to Islamic Philosophy is unique in including coverage of both perennial philosophical issues in an Islamic context and also distinct concerns that emerge from Islamic religious thought This work constitutes a substantial affirmation that Islamic philosophy is an integral part of the Western philosophical tradition Featuring 33 chapters divided into seven thematic sections this volume explores the major areas of philosophy Logic Metaphysics Philosophy in the Sciences Philosophy of Mind Epistemology and Ethics Politics as well as philosophical issues salient in Islamic revelation theology prophecy and mysticism Other features include A focus on both the classical and post

classical periods A contributing body that includes both widely respected scholars from around the world and a handful of the very best younger scholars Reference and Further Reading sections for each chapter and a comprehensive index for the whole volume The result is a work that captures Islamic philosophy as philosophy In this way it serves students and scholars of philosophy and religious studies and at the same time provides valuable essays relevant to the study of Islamic thought and theology Fundamental Theology Gerald O'Collins,2001-06-26 This book is an updated investigation of the central themes of fundamental theology revelation hermeneutics faith and its formulations and the role of authoritative teaching in the Church In a clear and balanced manner Gerald O Collins sums up the best of Roman Catholic teaching since Vatican II Students and others who are reflecting on the nature of their Christian belief will find this book invaluable The unique quality of this work however is its foundation in human experience Before he probes the theological issues O Collins lays down a groundwork for understanding experience It is not an attempt to turn fundamental theology into a subjective science but it is a recognition that the reality of God always intersects with self conscious human beings While it does not touch all of the themes of fundamental theology the book does provide in depth treatment of revelation tradition and inspiration
