Basic Tv Reporting Media Manuals

Ivor Yorke

Basic Tv Reporting Media Manuals:

Basic TV Reporting Ivor Yorke, 1997-10-24 Basic TV Reporting is a practical easy to read guide to the skills needed to become a successful television reporter arguably the most demanding and glamorous job in journalism The book describes the role in detail how reporters fit into the editorial team and where their duties begin and end Basic TV Reporting is a practical easy to read guide to the skills needed to become a successful television reporter arguably the most demanding and glamorous job in journalism The book describes the role in detail how reporters fit into the editorial team and where their duties begin and end The late Ivor Yorke has enjoyed a wealth of experience to pass on to aspiring broadcast journalists having spent more than 20 years as a writer reporter producer and editor before becoming Head of Journalist Training BBC News and Current Affairs He was also a freelance training consultant He is the author of Television News now in its third edition and co author with the late Bernard Hesketh of An Introduction to ENG also published by Focal Press Reviews This is a short well constructed book which is of as much value to the interviewed as to the interviewer It is practical and down to earth keep off the gin and stick to the tonic and delightfully easy to read British Journal of Educational Technology Easy to read guide to the skills needed to become a successful TV reporter Voice of the Listener *Basics of Video Lighting* Des Lyver, Graham Swainson, 2013-01-11 Now fully updated by Des Lyver to reflect the latest advances the second edition of Basics of Video Lighting is a primer for anyone wishing to learn about lighting a video production It describes the principles and processes involved in obtaining professional results in educational training and corporate environments Assuming little prior knowledge this book covers everything from the different types of lights and their control to basic studio and location settings It features the latest technology including the use of location and grip gear and changes in lamp and reflector technology coverage of studio and location work descriptions of the role of each crew member full explanations of technical terms health and safety precautions practical advice on the equipment available and how to use it Basics of Video Lighting aims to provide the reader with a rapid understanding of what is actually a complex process without getting too bogged down in technical terms It is equipment non specific and references to technical matters are only included where necessary to understanding for example a short explanation of the simple electricity that is needed to understand the relationship between the camera and the lights **Basics of Video Sound** Des Lyver, 1999-05-17 Now fully updated to reflect the latest advances the second edition of Basics of Video Sound is a primer for anyone wishing to learn about recording sound It describes the principles and processes involved in obtaining professional results in educational training and corporate environments Assuming little prior knowledge this book covers everything from how to choose a microphone and obtain the best quality recordings to editing the results for the final screening It features the latest advances in the use of disc and minidisc systems computer based editing in audio post production coverage of studio and location work descriptions of the role of each crew member full explanations of technical terms health and safety precautions practical advice on the equipment available and

how to use it *Basics of Video Sound* aims to provide the reader with a rapid understanding of what is actually a complex process without getting too bogged down in technical terms It is equipment non specific and references to technical matters are only included where necessary to understanding for example a short explanation of the electricity and physics that is needed in order to become a good sound recordist *Basics of Video Production* Des Lyver, Graham Swainson, 1999-05-17 Now fully updated by Des Lyver to reflect the latest advances the second edition of *Basics of Video Production* is a primer for anyone wishing to learn about video production It describes the principles and processes involved in obtaining professional results in educational training and corporate environments Assuming little prior knowledge this book takes the reader on a guided tour around a studio or location production examining the production process from conceptualisation to the final screening It features the latest advances in low cost non linear editing and digital video coverage of studio and location work descriptions of the role of each crew member full explanations of technical terms health and safety precautions practical advice on the equipment available and how to use it *Basics of Video Production* aims to provide the reader with a rapid understanding of what is actually a complex process without getting too bogged down in technical terms It is equipment non specific and references to technical matters are only included where necessary to understanding Much of what is contained in this book will be directly transferable to film and sound courses as the basics and principles are the same *The Video Studio* Alan Bermingham, Ed Boyce, Ken Angold-Stephens, Michael Talbot-Smith, 1994-10-17 The recent demise of the independent television companies and the expansion of satellite and cable networks has led to an explosion in small independent production facilities In parallel with this development has been a steady increase in media training and a major expansion in corporate video facilities *The Video Studio* is written for everyone contemplating setting up a professional installation whether studio or location based *The Video Studio* shows how to estimate the scale of investment required and depending on the nature and frequency of use of the facility the layout of technical areas and the function of the main items of equipment is described in easy to understand language In short this is a nuts and bolts approach to planning and operating a studio of 150 square metres or less Completely updated to take account of all the recent technological advances which have taken place the book now covers DAT timecode digital compression non linear editing and all current digital video formats

Digital Video Camerawork Peter Ward, 2012-08-21 This manual introduces digital camerawork techniques used in television and video production Written as a practical guide the author's step by step instructions take you through everything you need to know from camera controls to editing lighting and sound This text provides a solid foundation to build upon in the area of digital video production In a period of transition between analogue and digital acquisition recording formats *Digital Video Camerawork* provides up to date information familiarizing you with the different production styles and requirements Diagrams are used to illustrate the technology and techniques explained *Digital Video Camerawork* combines clear technical explanations with practical advice It is ideal for the less experienced broadcast camera operator and for

students on media and television production courses The Camera Assistant's Manual David E. Elkins, SOC,2020-03-12

Excel as a Cameraman in today's evolving film industry with this updated classic Learn what to do and what NOT to do during production and get the job done right the first time This seventh edition covers the basics of cinematography and provides you with the multi skill set needed to maintain and transport a camera troubleshoot common problems on location prepare for job interviews and work with both film and digital technologies Illustrations checklists and tables accompany each chapter and highlight the daily workflow of an Assistant Cameraman AC with expanded sections on problems and troubleshooting updated formulas tables and checklists as well as new information on the differences between working in the United States and UK and additional information on working with digital technology This is a must have for anyone looking to succeed in this highly technical and ever changing profession This book features a comprehensive companion web site that offers plenty of useful resources including online tutorials that ACs can easily access while on location and supplementary downloadable forms and checklists **Nonlinear Editing** Patrick Morris,2012-11-12 Nonlinear is a buzzword for every broadcaster and facility house worldwide Systems range from the humble to the exotic and despite the growing acceptance of the technology many users both new and experienced find the complexity of the operation and the time spent loading the material and rendering effects difficult to manage at first Non linear editing also comes with its own specialist language requiring each editor to be conversant with a new range of skills from day one As desktop systems improve the role of the traditional editor is constantly evolving and expanding This is an operational manual for professional trainees and students in the post production industry It will also serve as a useful reference tool for producers and directors Written in a concise and clear manner the book serves as a practical guide to the efficient management and operation of non linear editing systems It describes the technology involved the essential techniques to be mastered including on line and off line editing project management rendering effects working with graphics and audio and adding third party applications Designed for quick and easy reference this is a practical user guide to non linear editing that comes complete with an extensive jargon buster that will get you fully conversant with the technology in a short space of time Patrick Morris is a Trainer in Post Production for the Television Corporation of Singapore and the Singapore Broadcasting Authority as well as Chairman of the South East Asia User Group He is an AVID Certified Trainer with a working knowledge of Lightworks Media 100 Quantel D Vision and other systems Formerly a consultant and Senior Editor for BBC ITV and SKY TV he also spent many years a Training Manager for BBC Wood Norton and as Senior Video Tape Editor for Television South West **Research in Education**,1974 Resources in Education ,1994-07
