Broken Center Studies In The Theological Horizon Of Modern Literature:

The Broken Center Nathan Alexander Scott, 1968 *The Broken Center* Nathan A. Scott (jr.), 1966 *The Broken Center* Nathan A. Scott, 1968 *Nathan Scott's Literary Criticism and Fundamental Theology* William D. Buhrman, 2006
Nathan Scott's *Literary Criticism and Fundamental Theology* reexamines the pioneering contribution of Nathan A. Scott Jr. to the field of theology and literature. It both recalls Scott's achievement and suggests its continuing value by focusing on the question of Scott's method. Rather than following the traditional interpretation of Scott as a literary critic employing Paul Tillich's theology of culture, this book proposes that Scott's work is best understood as a form of fundamental theology. In doing so, it suggests that Scott's work models ways in which literary texts may be appropriately incorporated into theological discourse. Publisher's website

Religion and Literature Robert Detweiler, David Jasper, 2000-01-01. Featuring a selection from over 80 key texts, this anthology aims to help the reader to understand the common origins of religious expression and of literature. The texts included cover classical literature, the Bible, English and European classics, and contemporary works.

Robert Smithson Ann Reynolds, 2004-10-01. An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson. Robert Smithson (1938-1973) produced his best known work during the 1960s and early 1970s, a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since. In *Robert Smithson*, Ann Reynolds elucidates the complexity of Smithson's work and thought by placing them in their historical context, a context greatly enhanced by the vast archival materials that Smithson's widow, Nancy Holt, donated to the Archives of American Art in 1987. The archive provides Reynolds with the remnants of Smithson's working life: magazines, postcards from other artists, notebooks, and perhaps most important, his library, from which she reconstructs the physical and conceptual world that Smithson inhabited. Reynolds explores the relation of Smithson's art making, thinking about art making, writing, and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time. A central focus of Reynolds's analysis is Smithson's fascination with the blind spots at the center of established ways of seeing and thinking about culture. For Smithson, New Jersey was such a blind spot, and he returned there again and again, alone and with fellow artists, to make art that, through its location alone, undermined assumptions about what and more important, where art should be. For those who guarded the integrity of the established art world, New Jersey was elsewhere; but for Smithson, elsewhere were the defining, if often forgotten, locations on the map of contemporary culture.

At the Limits of Political Philosophy James V. Schall, 2010-04. James V. Schall presents in a convincing and articulate manner the revelational contribution to political philosophy, particularly that which comes out of the Roman Catholic tradition.
