familiar spirits might be the source of the problems you've been facing. Many of the reasons people go through battles in their lives are connected to the dark side. You may never experience any dramatic manifestations of the enemy's influence, but subtle activity can be just as damaging. These familiar spirits could eventually deter you from becoming all that God wants you to be. Enough is enough. When it comes to the enemy, it's time to stop hiding him out and start taking him out. Breaking the Power of Familiar Spirits shines light on the evil influences that sneak in through a back door. Discover how the enemy has taken up residence in your home and caused hindrances and havoc in your life. Come against any mind-binding or mind-blinding spirits that try to control your thinking and defeat them through the power of God. Splintering Silence Philo Ikonya, 2014-05-12 In *Splintering Silence* Philo Ikonya takes us to the source of her strength and power. Her poems rise from a gamut of experiences and thoughts, her philosophy and vision. In this amazing collection, soulful, reflective, and introspective, the poet searches with us even into her own name. The one she was given by her ancestors and the ones she is called by. She says darkness is visible in light, but both are us, and therefore we must reach for the I and surprise ourselves hailing ourselves. Hello Darkness, My Old Friend. This book is a celebration of the resilience of spirit and a constant loving compassion for the love of humanity. Philo Ikonya connects with activism and change in practical ways and liberating thoughts. **Landscape and Gender in the Novels of Charlotte Brontë, George Eliot, and Thomas Hardy** Eithne Henson, 2011 Examining representations of physical and metaphorical landscape in Charlotte Brontë, George Eliot, and Thomas Hardy, Henson explores the way gender attitudes are expressed both in descriptions of physical and metaphorical landscape and in the idea of nature through the gendered voices of the narrators. Henson looks at the influence of changing aesthetic theory, arguing that factors such as scientific enquiry and industrialization changed the representation of landscape and of Englishness in these realist novels. **Sound Poetics** Seán Street, 2017-07-14 This book examines sonic signals as something both heard internally and externally through imagination, memory, and direct response. In doing so, it explores how the mind makes sound through experience as it interprets codes on the written page and creates an internal leitmotif that then interacts with new sounds made through an aural partnership with the external world: chosen and involuntary exposure to music and sound messages, both friendly and antagonistic to the identity of the self. It creates an argument for sound as an underlying force that links us to the world we inhabit, an essential part of being in the same primal sense as the calls of birds and other inhabitants of a shared earth. Street argues that sound as a poetic force is part of who we are, linked to our visualisation and sense of the world as idea and presence within us. This incredibly interdisciplinary book will be of great interest to scholars of radio, sound media, and literature, as well as philosophy and psychology. Gender is Fair Game Michiko N. Wilson, 2019-07-23 This is a critical study of the major novels and short stories of Minako Oba. 1930, the undisputed leader in the resurgence of women writers in Japan, Oba is a postmodernist rethinking gender and culture, encompassing the theme of female Bildungsroman and drawing on marinated memories. *The Return of the Native* Thomas Hardy, 1922
