Framing the Polish Home Bożena Shallcross,2002-12-31 As the subject of ideological aesthetic and existential manipulations the Polish home and its representation is an ever changing phenomenon that absorbs new tendencies and at the same time retains its centrality to Polish literature whether written in Poland or abroad *Framing the Polish Home* is a pioneering work that explores the idea of home as fundamental to the question of cultural and national identity within Poland s recent history and its tradition In this inaugural volume of the Polish and Polish American Studies Series the Polish home emerges in its rich verbal and visual representations and multiple material embodiments as the discussion moves from the loss of the home during wartime to the Sovietized politics of housing and from the exilic strategies of having a home to the the idyllic evocation of the abodes of the past Although as Bo ena Shallcross notes in her introduction few concepts seem to have such universal appeal as the notion of the home this area of study is still seriously underdeveloped In essays from sixteen scholars *Framing the Polish Home* takes a significant step to correct that oversight covering a broad range of issues pertinent to the discourse on the home and demonstrating the complexity of the home in Polish literature and culture
