Bryggen The Hanseatic Settlement In Bergen:

Bryggen ,1982 King's Lynn and the Fens John McNeill,2017-07-05 The fourteen papers collected in this volume explore the medieval art architecture and archaeology of King s Lynn and the Fens They arise out of the Association s 2005 conference and reflect its concern to engage with a broad range of monuments and themes rather than focusing on a single major building Within King s Lynn contributors consider the superb 14th century enamelled drinking vessel popularly known as King John s Cup the former Hanseatic Steelyard the Red Mount Chapel and the oak furnishings of the chapel of St Nicholas while the pine standard chest from St Margaret s church is assessed in terms of the importation and distribution of similar chest across England as a whole Outside King s Lynn there are articles on the historical manipulation of landscapes and buildings at Kirkstead the 13th century architecture and sculpture of Croyland Abbey the 14th century parish church of St Mary at Snettisham the tomb of Sir Humphrey de Littlebury at All Saints Holbeach the overlooked medieval wall paintings in the Prior s Chapel at Castle Acre and the late medieval stained glass at Wiggshall St Mary Magdalen Finally there are three papers that look at particular aspects of the ways in which parish churches were financed embellished and used across the region in terms of late 12th and early 13th century patronage their 12th century deployment of architectural sculpture and the types and arrangements of choir stalls that appeared at a parochial level during the later Middle Ages A Companion to the Hanseatic League ,2015-01-27 The Companion to the Hanseatic League discusses the importance of the Hanseatic League for the social and economic history of pre modern northern Europe Established already as early as the twelfth century the towns that formed the Hanseatic League created an important network of commerce throughout the Baltic and North Sea area From Russia in the east to England and France in the west the cities of the Hanseatic League created a vast northern maritime trade network The aim of this volume is to present a state of the field English language volume by some of the most respected Hanse scholars Contributors are Mike Burkhardt Ulf Christian Ewert Rolf Hammel Kiesow Donald J Harreld Carsten Jahnke Michael North J rgen Sarnowsky and Stephan Selzer Our Blue Planet: An Introduction to Maritime and Underwater Archaeology Ben Ford,Jessi J. Halligan,Alexis Catsambis,2020-04-07 Our Blue Planet provides a comprehensive introduction to the field of maritime and underwater archaeology Situating the field within the broader study of history and archaeology this book advocates that an understanding of how our ancestors interacted with rivers lakes and oceans is integral to comprehending the human past Our Blue Planet covers the full breadth of maritime and underwater archaeology including formerly terrestrial sites drowned by rising sea levels coastal sites and a wide variety of wreck sites ranging across the globe and spanning from antiquity to World War II Beginning with a definition of the field and several chapters dedicated to the methods of finding recording and interpreting submerged sites Our Blue Planet provides an entry point for all readers whether or not they are familiar with maritime and underwater archaeology or archaeology in general The book then shifts to a thematic approach with chapters exploring human interactions with the watery world both

along the coasts and by ship These chapters discuss the relationships between culture technology and environment that allowed humans through time to spread across the globe Because ships were the primary means for humans to interact with large bodies of water they are the focus of several chapters on the development of shipbuilding technology the lives of sailors and the uses of ships in exploration expansion and warfare The book ends with chapters on how and why the non renewable submerged archaeological record should be managed so that both current and future generations can learn from the achievements and failures of past societies as well as on how anyone can become involved in maritime and underwater archaeology Throughout the reader benefits from the personal reflections of a number of leading figures in the field

Trade, Diplomacy and Cultural Exchange Hanno Brand, 2005 Commercial relations between the North Sea area and the Baltic contributed in a fundamental way to Holland's economic dominance in the seventeenth century They were embedded in a region where numerous expressions of a common culture facilitated the mobility of people and commodities or the spreading of tastes and ideas The German Hansa played a very important role in this process but also after its decline economic contacts between the North Sea region and the Baltic continued and with them a prolonged process of cultural interaction This volume describes the interconnections of the various aspects of the common economic culture in the region between ca 1350 and 1750

Medieval Scandinavia Birgit Sawyer, 1993 The study of Scandinavia has been and still is deeply influenced by the interpretation of its earliest history that was developed in the 19th century by political legal and literary historians archaeologists and anthropologists Scandinavia figured prominently in discussions of early medieval Europe not only as the homeland of the Vikings but also as the region in which Germanic society remained uncontaminated by Christianity and other influences longer than anywhere else In *Medieval Scandinavia* Birgit and Peter Sawyer question assumptions about early Scandinavian history including the supposed leading role of free and equal peasants and their position in founding churches They meticulously trace the development of Scandinavia from the early ninth century through the second and third decades of the 16th century when rulers of Scandinavia rejected the authority of the Papacy and the attempt to establish a united Scandinavian monarchy finally collapsed The authors include a discussion of medieval history writing and comment on the use of history in the 16th century and modern attitudes to medieval history which differ in various parts of Scandinavia They ultimately conclude that historic Scandinavia held greater similarities to other European regions than has been commonly supposed Birgit Sawyer is one of the founders of the biennial interdisciplinary conferences on women in medieval Scandinavia Peter Sawyer's previous books include *Kings and Vikings* and *The Age of the Vikings*

Sheaths and Scabbards from Medieval Bergen Ole-Magne Nøttveit, 2010 Language Contact and Development around the North Sea Merja Stenroos, Martti Mäkinen, Inge Særheim, 2012-04-18 This volume brings together eleven studies on the history of language and writing in the North Sea area with focus on contacts and interchanges through time Its range spans from the investigation of pre Germanic place names to present day Shetland the materials studied include glosses legal and

trade documents as well as place names and modern dialects The volume is unique in its combination of linguistics and place name studies with literacy studies which allows for a very dynamic picture of the history of language contact and texts in the North Sea area Different approaches come together to illuminate a major insight the omnipresence of multilingualism as a context for language development and a formative characteristic of literacy Among the contributors are experts on English Nordic and German language history The book will be of interest to a wide range of scholars and students working on the history of Northern European languages literacy studies and language contact *Commodifying Cannabis* Bradley J. Borougerdi, 2018-11-19 Cannabis is a genetically diverse plant that has been commodified for a variety of different purposes by many cultures throughout world history For thousands of years people have used its fiber seed and flowers to make rope and cloth rig ships feed people and livestock concoct medicines and alter states of consciousness Until the nineteenth century though most Europeans and Americans were unaware of drug varieties of cannabis The British encountered them in India and created western style medicines that sold throughout the Atlantic world by the 1840s but negative associations with Oriental intoxication and degeneracy sullied the plant's reputation as a viable commodity Now after decades of transatlantic criminalization policies against cannabis in the twentieth century it is making a comeback In *Commodifying Cannabis* Bradley J. Borougerdi traces the tangled histories of its use for fiber medicine and altered states of consciousness across the Atlantic world focusing on the dynamic interplay between these three different cultural applications to explain why the plant has transformed so many times throughout history The historical journey spans a vast geographical landscape and includes over three centuries of source material to illuminate the cultural foundations behind the myriad transformations cannabis has endured as a commodity in the Atlantic world *The Rough Guide to Norway* Phil Lee, 2003 The Rough Guide to Norway covers everything from urbane Oslo to the remote Arctic town of Tromsø and from the idyllic off shore islands to the awe inspiring fjords It contains a 24 page full colour photographic introduction previewing the country's highlights as chosen by the author
