Controvich, Martin Gordon, 2004-06-24 This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present These titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force Researchers and libraries will find the organization of titles easy to use Entries include private sponsored or unofficial histories often written by the unit historian personal narratives purely photographic or pictorial histories route of battle maps published or printed rosters officially produced titles This is an indispensable resource for military aviation historians libraries with strong collections in military and air force history and unit history collectors It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel A History of the Mediterranean Air War, 1940-1945 Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich's oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter

reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany's Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies [Air Force Magazine](#) ,1992-07 **The Western European and Mediterranean Theaters in World War II** Donal Sexton,2011-10-06 The Western European and Mediterranean Theaters in World War II is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease Focusing on all aspects surrounding the U S involvement in the Western European and Mediterranean theaters including politics religion biography strategy intelligence and operations this bibliography will be a welcome addition to the collection of any academic or research library Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian **Bombing Europe** Kevin A. Mahoney,2013-04-25 In *Fifteenth Air Force against the Axis Combat Missions over Europe during World War II* Kevin A Mahoney provides a detailed combat history of the crucial role played by this air force from November 1943 through May 1945 Presented by month in chronological order Mahoney describes all the major bombing and fighter missions carried out by this air force within a

strategic context Each chapter includes an introduction describing developments in the evolution of the strategic air campaign against the Germans highlights the purpose and importance of the month s operations and reviews the Luftwaffe s resistance and changes in tactics and important developments in the Fifteenth Air Force s organization Each monthly narrative further explores most missions detailing the number of aircraft lost during these missions Losses are based on an exhaustively researched database compiled by Mahoney that contains details of almost 3 000 aircraft Target damage is mentioned while enemy opposition is also described for each mission Appendices include four short essays on bombing operations planning and flying of missions tactics and techniques bomb types and bombing accuracy tactics employed by fighter escort in aerial combat and strafing combat crews and their aircraft including a comparison of American fighters and bombers the training of the crews and their combat tours and the Fifteenth Air Force command structure including the use of intelligence photo and weather reconnaissance and the considerable effect of weather on Fifteenth Air Force operations This work of military history is ideal for students and scholars of the air war in Europe Monte Cassino Peter Caddick-Adams,2013 Waged deep in the Italian mountains beneath a mediaeval monastery the battle of Monte Cassino was an astonishingly brutal encounter grinding up ten armies in conditions as bad as the Eastern Front at its worst This book provides a vivid account of how an array of men from across the globe fought the most lengthy and devastating engagement of the Italian campaign in an ancient monastery town **Lost Airmen** Charles E. Stanley,2022-03-15 Late in 1944 thirteen U S B 24 bomber crews bailed from their cabins over the Yugoslavian wilderness Bloodied and disoriented after a harrowing strike against the Third Reich the pilots took refuge with the Partisan underground But the Americans were far from safety Holed up in a village barely able to feed its citizens encircled by Nazis and left abandoned after a team of British secret agents failed to secure their escape the airmen were left with little choice It was either flee or be killed In *The Lost Airmen* Charles Stanley Jr unveils the shocking true story of his father Charles Stanley and the eighteen brave soldiers he journeyed with for the first time Drawing on over twenty years of research dozens of interviews and previously unpublished letters diaries and memoirs written by the airmen Stanley recounts the deadly journey across the blizzard swept Dinaric Alps during the worst winter of the Twentieth Century and the heroic men who fought impossible odds to keep their brothers in arms alive *Air Pictorial* ,2002
