Beastly Keggie Carew, 2023-07-18 From an award winning writer a story rich exploration of our shared planet and the astonishing moving and troubled connections between humans and other animals Animals have shaped our minds our lives our land and our civilization Humanity would not have gotten very far without them and yet over the past two centuries the relationship has grown further apart In *Beastly* author Keggie Carew seeks to re enchant readers with the wild world reframing our understanding of what it is like to be an animal and what our role is as humans *Beastly* throws readers headlong into the mind blowing heart thumping glittering pageant of life and goes in search of our most revealing encounters with the animal world throughout the centuries to show where we've come from and where we're going How did we domesticate animals and why did we choose sheep goats cows pigs horses and chickens but never zebras How can whales help solve climate change What does it mean when a young woman befriends a boar a gorilla tells a joke or a fish thinks What does a wren sing *Beastly* is a gorgeously written deeply researched and intensely felt journey into the splendor and genius of animals and the long complicated story of our interactions with them as humans Our relationship with animals has shaped our planet and if reimagined could save it

The Oxford Handbook of Animal Studies Linda Kalof, 2017-02-01 Intellectual struggles with the animal question how humans can rethink and reconfigure their relationships with other animals first began to take hold in the 1970s Over the next forty years scholars from a wide range of fields would make sweeping reevaluations of the relationship between humans and other animals *The Oxford Handbook of Animal Studies* brings these diverse evaluations together for the first time paying special attention to the commodification of animals the degradation of the natural world and a staggering loss of animal habitat and species extinction and the increasing need for humans to coexist with other animals in urban rural and natural contexts Linda Kalof maps these themes into the five major categories that structure this volume Animals in the Landscape of Law Politics and Public Policy Animal Intentionality Agency and Reflexive Thinking Animals as Objects in Science Food Spectacle and Sport Animals in Cultural Representations and Animals in Ecosystems Written by international scholars with backgrounds in philosophy law history English art sociology geography archaeology environmental studies cultural studies and animal advocacy the thirty chapters in this handbook investigate key issues and concepts central to understanding our current relationship with other animals and the potential for coexistence in an ecological community of living beings
