Department of Mental Health and Substance Abuse,World Health Organization. Mental Health Evidence and Research Team,2005 This atlas is aimed at collecting compiling and disseminating information on mental health resources in the world It presents updated and expanded information from 192 countries with analyses of global and regional trends as well as individual country profiles Newly included in this volume is a section on epidemiology within the profiles of all low and middle income countries

It shows that mental health resources within most countries remain inadequate despite modest improvements since 2001. Availability of mental health resources across countries and between regions remains substantially uneven with many countries having few resources. The atlas reinforces the urgent need to enhance mental health resources within countries.

Handbook of Evidence-Based Inpatient Mental Health Programs for Children and Adolescents Jarrod M. Leffler, Alysha D. Thompson, Shannon W. Simmons, 2024-08-30. This book reviews the history of inpatient psychiatric hospital IPH and acute mental health services for youth. In addition, it highlights current IPH care models for children and adolescents demonstrating an increase in the development and implementation of evidence-based informed EBI treatments in IPH and acute care settings. The book offers insights into program development, implementation, and measurement as well as considerations for sustainability. Chapters describe interventions designed to enhance the well-being of youth and their families who are experiencing a range of mental health concerns. The book shares practicable strategies for measuring outcomes and applying these results to meaningful clinical outcomes in IPH and acute care settings. It also provides treatment referral resources and information about the process of accessing and using such services. Finally, the book reviews additional treatment resources that may be necessary in the continuum of mental health care for youth. Key areas of coverage include: Developing and constructing the physical and safety environment of an IPH unit and suicide and safety planning; Setting and monitoring treatment goals and discharge criteria; Equity, diversity, and inclusion considerations in psychiatric inpatient units; Program operations and therapy on a psychiatric inpatient unit for youth diagnosed with neurodevelopmental disorders; Disaster preparation and impact on inpatient psychiatric care. The *Handbook of Evidence-Based Inpatient Mental Health Programs for Children and Adolescents* is a must-have resource for researchers, professors, and graduate students as well as clinicians, therapists, and other professionals in developmental clinical child developmental and school psychology, social work, public health, child and adolescent psychiatry, family studies, pediatrics, and all related disciplines.

Developing Services in Mental Health-Substance Use David B. Cooper, 2018-04-19. Mental health substance use is a complex interrelation with equally complex implications for individuals and their families, health professionals, and society. Although its international recognition as an issue of critical importance is growing, clear guidance for professionals on mental health substance use and its treatment is hard to find. The *Mental Health Substance Use* series addresses this need, concentrating on concerns, dilemmas, and concepts that impact on the life and well-being of affected individuals and those close to them, and the future direction of practice, education, research, services, interventions, and treatment. Having set the scene with the first book's Introduction, this second book in the series tackles service development: how to evaluate the current state from a firm knowledge base, plan and manage change to provide better services, and continue monitoring and evaluating them on an ongoing basis. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention, and care responses and the adoption of research-led best practice. They are essential reading for mental health

and substance use professionals students and educators
