Clarity on certain things you know put some videos out talking about regulation UCC and your rights to be able to make the posits on your own personal accounts

all that information was put out there so that you can so that you can start doing your own research so to look into some of the information that I'm presenting I noticed that a lot of times when people see stuff on videos instead of them doing their own research they like to just take it and to start trying to do it and I don't think that no one should ever just heard someone the video and then just take it and start trying to do it you know you always study get a thorough understanding make sure that you cross all your Tees and you got all your eyes before you start trying to make moves OK I just want to explain something about check the posits I like when you deposit a check a check is a deposit is an unpaid balance from a bank in which the bank fails to pay so that's why whenever you deposit into your account check with no money in it never gets paid because the bank never pays those deposits bank withhold deposits now they will transfer credits now if you credit your account with the instrument they will transfer that credit but as far as paying for the instrument that they received they never pay that's why there's no money in the account it never reflects in the account when you issue a check on an account with nothing in it now the account comes already with available funds alright because the bank is a secure depository in which the Bank of has an obligation to secure all its accounts because it's a secure depository but by the bank being the instrumentality of the United states meaning that it's the United states agency then it has to comply with the rules and regulations of the United states

concerning commercial commerce and trade so because of eminent domain everything the state seizes all property in a time of war so even though you own the application or you own the lease when you sign and you do business with any United States agency alright appoint the inception of the disposition of the personal property or the convenience of that personal article or personal property there's a switch on what we would call a transfer to word so you have to understand that everything you touch you're creating some sort of interest and that interest is the value of the article so like let me show you what I'm talking about rights.

I like this right here this right here is T-Mobile alright this is a lease for the apple 13 phone right so usually when you get the phone you got to feel you got to sign something whether they do it generated or not and then on the last page is where I got my signature alright so when I go online when I get the phone and I just entered into a lease right here it got your first monthly payment of 2535 is due on 11/7/2021 followed by 16 payments of 2535 doing seven of each month so this is a promissory note that's what this is this is a promise you know for the simple fact it's showing how much I owe right it's saying that this amount is due and then it's followed by 16 consecutive payments so this instrument is evidenced in some sort of obligation to be due and to be payable on certain days which is also a promise because somebody signed that the instrument is what's
