Before And After September 11 2001 An Asian Perspective:

Before and After September 11, 2001 Ateneo Center for Asian Studies, 2004 The essays here delve into the historical and social roots of the 9 11 attacks and their implications on the economy and on society as a whole One notes that the issues raised and analyses made by the eminent scholars in these articles continue to be relevant and useful and in fact may provide a basis for understanding developments that are yet to unfold from the Introduction **Race and Arab Americans Before and After 9/11** Amaney Jamal, Nadine Naber, 2008-02-27 Bringing the rich terrain of Arab American histories to bear on conceptualizations of race in the United States this groundbreaking volume fills a critical gap in the field of U S racial and ethnic studies The articles collected here highlight emergent discourses on the distinct ways that race matters to the study of Arab American histories and experiences and asks essential questions What is the relationship between U S imperialism in Arab homelands and anti Arab racism in the United States In what ways have the axes of nation religion class and gender intersected with Arab American racial formations What is the significance of whiteness studies to Arab American studies Transcending multiculturalist discourses that have simply added on the category Arab American to the landscape of U S racial and ethnic studies after the attacks of September 11 2001 this volume locates September 11 as a turning point rather than as a beginning in Arab Americans *Northeast Asia* Vinod K. Aggarwal, Min Gyo Koo, Seungjoo Lee, Chung-in Moon, 2008-09-26 Can regional mechanisms better institutionalize the increasing complexity of economic and security ties among the countries in Northeast Asia As the international state system undergoes dramatic changes in both security and economic relations in the wake of the end of the Cold War the Asian financial crisis and the attack of 9 11 this question is now at the forefront of the minds of both academics and policymakers Still little research has been done to integrate the analysis of security and economic analysis of changes in the region within a broader context that will give us theoretically informed policy insights Against this backdrop this book investigates the origins and evolution of Northeast Asia s new institutional architecture in trade finance and security from both a theoretical and empirical perspective Asian Perspectives on the World's Religions after September 11 Arvind Sharma, Madhu Khanna, 2013-02-15 This book offers a unique perspective on September 11 and our world after this tragic event sharing lessons from an Asian religious experience that can help heal a world troubled by religious conflicts and deepening divisions and promote a positive global transformation Existing literature regarding the events of September 11 and our world afterward has focused mostly on the West and the Middle East Asian Perspectives on the World s Religions after September 11 extends this discussion to include Asia a continent and culture far too important to be ignored in any assessment of the global impact of this event The book is organized along the following themes as they emerged post September 11th religion and civilizational dialogue religion conflict and peace religion and human rights religion and ethics religion and the arts religion hermeneutics and literature religion and gender religion and ecology and religion and globalization Individuals who are studying or teaching political

science international relations philosophy ethics Asian studies or religious studies will find the text invaluable while general readers will appreciate the largely unvoiced Asian perspective on this topic **China Views Nine-Eleven** Mei Renyi, Yan Xunhau, 2020-05-15 The events of September 11 2001 had reverberations which were felt across the world not just in the United States In their aftermath the United States refocused its foreign policies a process that had a major impact upon the Asia Pacific region especially China In this cross disciplinary collection of essays almost two dozen scholars the majority of them from China range across a wide spectrum of issues to address just how Nine Eleven affected the United States globally and at home Different authors discuss non Americans images of the United States the nation s international position and policies the mindset and influence of neo conservatives American internal politics debates over immigration the cultural repercussions of Nine Eleven for television literature drama art and music and the implications of efforts to commemorate the events of September 11 2001 Uniting all these essays is the effort to view the events of September 11 2001 not in isolation but in a much broader context a framework encompassing the entire sweep of US involvement in the world since the seventeenth century and the country s political intellectual cultural and literary history and traditions The dialogue among them produces a complicated and fruitful dialectical network of cross fertilization across different areas a stimulating and intricate cat s cradle from which the enterprising reader may draw new and profitable intellectual discoveries *China's Regional Relations in Comparative Perspective* Steven F. Jackson, 2018-02-06 China s relations with its neighbors have evolved since 1949 and in the 21st century many scholars argue that China s rising power has led it to be increasingly domineering over those smaller countries in Northeast Southeast Central and South Asia The evolution of China s regional relations needs to be examined comprehensively since China counts twenty seven countries as its neighbors large and small While China s official policy toward all of these countries is to treat them as good neighbors and partners some of these relationships have been spectacularly deteriorating while others have been quietly improving over the last two decades Jackson takes a comparative foreign policy approach and compares China s status as a regional hegemon with the United States Russia India Brazil South Africa and Nigeria The result is a broader theory as to why regional powers are sometimes intimidating and at other times accommodating An important contribution to studies on China this book will prove useful to scholars and students in Chinese and Asian foreign policy comparative foreign policy and international relations

Scapegoating Islam Jeffrey L. Thomas, 2015-09-15 Exploring the experience of Muslims in America following 9 11 this book assesses how anti Muslim bias within the U S government and the larger society undermines American security and democracy In the aftermath of the events of September 11 2001 Muslims in America have experienced discrimination and intolerance from the U S government and American citizens alike From religious and ethnic profiling to hate crimes intolerance against Muslims is being reinforced on multiple levels undercutting the Muslim community s engagement in American society This text is essential for understanding how the unjust treatment of American Muslims following September

11 has only served to alienate the Muslim community and further divide the United States Authored by an expert analyst of policy for 20 years this book explores the prejudice against Muslims and how the actions of the U S government continue to perpetuate fear and stereotypes within U S citizens The author posits that by respecting the civil rights of Muslims the government will lead by example in the acceptance of American Muslims improving homeland security along with the lives of Muslims living in the United States

South Asian Security and International Nuclear Order Mario Esteban Carranza,2016-04-01 Mario Carranza studies in depth the linkages between Indo Pakistani nuclear relations and the International Nuclear Order He critically analyzes the de facto recognition by the United States of India and Pakistan as nuclear weapon states and looks at the impact of that recognition on the International Nuclear Order and its linchpin the Nuclear Non Proliferation Treaty NPT The book provides a critical analysis of the New International Nuclear Order sponsored by the United States after the September 11 terrorist attacks and the place of India and Pakistan in that order The author considers the survival of India and Pakistan in relation to a strategy of nuclear deterrence and debates the possibility of establishing a robust nuclear arms control regime in South Asia as part of a broader effort to revive global nuclear arms control and disarmament negotiations

Lord Cornwallis Is Dead Nico Slate,2019-02-11 Do democracies bring about greater equality among their citizens India embraced universal suffrage in 1947 and yet its citizens are far from realizing equality The U S struggles with intolerance and inequality well into the twenty first century Nico Slate offers a new look at the struggle for freedom that linked two former British colonies
