Bahrain Bibliography World Bibliographical Series:

Historical Dictionary of the Gulf Arab States Malcolm C. Peck, 2007-12-20 The second edition of the Historical Dictionary of the Gulf Arab States comes at a time when the world's attention is riveted on the Middle East. The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world's total oil reserves. Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture. No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states. Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations. This expanded second edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country. Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world.

Bibliographic Series Bibliographic series (Jāmi'at al-Kuwayt. Murāqabat al-Maktabāt), 1969 The British National Bibliography Arthur James Wells, 2006 *Creating the Arabian Gulf* Paul J. Rich, 2009-08-16 Even whether to call the Gulf Arabian or Persian is an unending argument. Regardless of its name the Gulf is one of the most politically important regions of the world. Despite its constant presence in the headlines the fact that it was part of the British Indian empire for many years has gone unappreciated. The long period of British control and the connections with India are in fact necessary in understanding the contemporary Middle East. With more than ten years of experience as a government advisor in Saudi

Arabia and Qatar Paul Rich draws on previously closed archives to document the actual heritage of the area and dispel the myths Rich shows that the influences of Britain and India are far deeper than commonly acknowledged and that the sheikhs are actually the creation of the British Raj He explains that they owe their thrones to a small group of British political agents the Heaven Born who created the satraps and then proceeded to rule from behind the scenes by a clever use of stagecraft and ritual that was heavily flavored by their experiences at English public schools and in Masonic lodges In its attempt to make sense of the complexity of Arab sheikhdoms in the Gulf Creating the Arabian Gulf is an ideal book for students and scholars interested in Middle East studies and international relations

Building Area Studies Collections Dan C. Hazen, James H. Spohrer, 2007 These essays by noted Area Studies specialists at a number of US research libraries serve as a practical and theoretical guide to university and college administrators library directors and heads of collection development as well as selection practitioners who work to create foreign language collections for research libraries The volume constitutes a general introduction for new practitioners and even the most experienced Area Studies librarians will find useful practical advice for reviewing and refining their existing collecting practices Coverage includes East Asia Latin America Southeast Asia Africa South Asia and the Romance language areas of Europe as well as the German Nordic Netherlandic countries Each essay presents the Area Studies topic in question from an historical perspective and provides background on its present status and anticipated future development Special emphasis is placed on the techniques of both print and digital collecting and on the assessment methods by which collection strengths and future needs are determined Guidelines for expenditures for both collections and collateral activities such as providing access and preservation are provided and contributors also supply extensive documentation for the burgeoning array of online digital resources which have emerged in the past decade The volume editors Dan C Hazen Harvard and James H Spohrer University of California Berkeley also provide a general introduction to the topic and a detailed summary of current cooperative activities in Area Studies collecting

Bahrain P. T. H. Unwin, 1984 **Continental Shelf Delimitation and Related Maritime Issues in the Persian Gulf** Ahmad Razavi, 1997 The most significant characteristic of the Persian Gulf is the presence of huge oil fields under the sea bed of its shallow waters On the other hand the lack of understanding among the littoral states concerning the proper exploitation of these valuable resources has led to many conflicts and is still considered as having a very high potential for conflict This work clarifies the international legal rules applicable to the region with particular attention to the special characteristics of the Persian Gulf such as ethnic conflicts lack of defined land borders presence of numerous islands reefs and shoals and the presence of transboundary oil deposits It consists of a collection of materials relating to the law of the sea including both domestic and international rules conventions maritime agreements state practice the jurisprudence of the International Court of Justice and others The study analyses all of these important factors in order to find an equitable solution to the problems facing the international community
