Balkans Nationalism War And The Great Powers 18041999:

Armed Peacekeepers in Bosnia Robert F. Baumann, George Walter Gawrych, Walter Edward Kretchik, 2004 **The Balkans** Misha Glenny, 2000 In a survey of Balkan history since the early nineteenth century Misha Glenny provides the essential background to recent events in this war torn area No other book covers the entire region and offers such profound insights into the roots of Balkan violence or explains so vividly the origins of modern Serbia Croatia Bosnia Greece Bulgaria Romania and Albania Many readers will welcome the author's insights into the final century of Ottoman rule a complex and colorful period essential for understanding today's conflicts Glenny's account of each national group in the Balkans and its struggle for statehood is lucid and fair minded and he brings the culture of different nationalisms to life The narrative is permeated with sharply observed set pieces and portraits of kings guerrillas bandits generals and politicians He interweaves a narrative of key events with the story of international affairs the relations between states in the Balkans and between them and the great powers BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved A History of the War in the Balkans R. Craig Nation, 2018-04-04 The Balkans is often described as a grim backwater a no man's land of world politics in the words of a post World War II study foredoomed to conflict springing from heterogeneity The stereotype is false but it has been distressingly influential in shaping perceptions of the Balkan conflict and its origin By encouraging pessimism about prospects for recovery it may also make it more difficult to sustain commitments to post conflict peace building This book seeks to refute simplistic ancient hatreds explanations by looking carefully at the sources and dynamics of the Balkan conflict in all of its dimensions **War in the Balkans** Richard C. Hall, 2014-10-09 This authoritative reference follows the history of conflicts in the Balkan Peninsula from the 19th century through the present day The Balkan Peninsula which consists of Albania Bulgaria Romania Moldova and the former Yugoslavia resides in the southeastern part of the European continent Its strategic location as well as its long and bloody history of conflict have helped to define the Balkans role in global affairs This singular reference focuses on the events individuals organizations and ideas that have made this region an international player and shaped warfare there for hundreds of years Historian and author Richard C Hall traces the sociopolitical history of the area starting with the early internal conflicts as the Balkan states attempted to break away from the Ottoman Empire to the assassination of Archduke Franz Ferdinand that ignited World War I to the Yugoslav Wars that erupted in the 1990s and the subsequent war crimes still being investigated today Additional coverage focuses on how these countries continue to play an important role in global affairs and international politics *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial

and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism Hunger and Fury Jasmin Mujanovic,2018-03-01 Argues that the Balkans are on the cusp of a historic socio political transformation rather than renewed ethnic strife **The Politics of Nation-Building** Harris Mylonas,2013-02-18 What drives a state s choice to assimilate accommodate or exclude ethnic groups within its territory In this innovative work on the international politics of nation building Harris Mylonas argues that a state s nation building policies toward non core groups individuals perceived as an ethnic group by the ruling elite of a state are influenced by both its foreign policy goals and its relations with the external patrons of these groups Through a detailed study of the Balkans Mylonas shows that how a state treats a non core group within its own borders is determined largely by whether the state s foreign policy is revisionist or cleaves to the international status quo and whether it is allied or in rivalry with that group s external patrons Mylonas injects international politics into the study of nation building building a bridge between international relations and the comparative politics of ethnicity and nationalism *International Human Rights* Jack Donnelly,2012-07-22 International Human Rights examines the ways in which states and other international actors have addressed human rights since the end of World War II This unique textbook features substantial attention to theory history international and regional institutions and the role of transnational actors in the protection and promotion of human rights Its purpose is to explore the difficult and contentious politics of human rights and how those political dimensions have been addressed at the national regional and especially international levels The fifth edition is substantially updated rewritten and revised throughout including updates on multilateral institutions especially the UN s Universal Periodic Review process and the Human Rights Council s Special Procedures mechanisms regional systems human rights in foreign policy including a specific chapter on U S foreign policy humanitarian intervention and the responsibility to protect and anti terrorism and human rights The book also includes a new chapter on the unity indivisibility of human rights Chapters include discussion questions case studies for in depth examination of topics including new case studies on the U N Special Procedures Myanmar and Israeli settlements in West Bank Palestine and ten problems including new entries on the war in Syria and hierarchies between human rights tailored to promote classroom discussion **Transnationalism in the Balkans** Denisa Kostovicova,Vesna Bojicic-Dzelilovic,2013-10-18 After a decade of exclusive nationalism violence and isolation of the 1990s the Balkans has seen the emergence of transnational links between the former ethnic foes Do these new cross border links herald the era of inter ethnic reconciliation in place of the politics of ethnic exclusion Are they a proof of a successful transition from authoritarianism and war to democracy and peace Drawing on substantial empirical research by regional specialists Transnationalism in the Balkans provides a sobering insight into the nature of cross border links in the region and their implications Several of the authors show how transnational connections in the context of weak states and new borders

in the region have been used by transnational actors be it in the politics economics and culture to undermine a democratic consolidation and keep the practice of exclusive ethnic politics and identities alive These findings make a strong case to go beyond the region and put forth a critical argument for rethinking the theories of transition to democracy in the post Communist and post conflict setting to incorporate a dimension of globalisation This book was previously published as a special issue of Ethnopolitics
