History of the Middle Ages Victor Duruy, 2015-06-26 Excerpt from *History of the Middle Ages* Definition of the Middle Ages The term Middle Ages indicates the period which elapsed between the ruin of the Roman Empire and the establishment of the great modern monarchies It extends from the German invasion at the beginning of the fifth century to the capture of Constantinople by the Ottoman Turks ten centuries later in 1453 In this period situated between ancient and modern times the cultivation of arts and letters was suspended although a new and magnificent architecture was developed In place of the

republics of antiquity and the monarchies of our day there grew up a special organization called feudalism This domination of the feudal lords the product of many centuries was finally overthrown by Louis XI the Tudors and the princes contemporary with them Although there were kings in all countries the military and ecclesiastical chiefs were the real sovereigns from the ninth to the twelfth century The central power had no force local powers had no overseer or guide the frontiers had no fixed limits The sovereign and owner parcelled out the territory into a multitude of petty states where the sentiment of nationality could not exist Nevertheless above this condition of many lords hovered the idea of Christianity represented by the pope and of a certain political unity represented by the emperor in comparison with whom all the kings of Europe were provincial About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
