Behind The Battle Intelligence In The War With Germany 1939-45:

Behind the Battle Ralph Francis Bennett, 1994 Intelligence Power in Peace and War Michael Herman, 1996-10-13

Intelligence services form an important but controversial part of the modern state Drawing mainly on British and American examples this book provides an analytic framework for understanding the intelligence community and assessing its value Michael Herman a former senior British Intelligence officer describes the various components of intelligence discusses what intelligence is for considers issues of accuracy evaluation and efficiency and makes recommendations for the future of intelligence in the post Cold War world **Espionage, Security, and Intelligence in Britain, 1945-1970** Richard James Aldrich, 1998

This book takes the concept of postmemory developed in Holocaust studies and applies it for the first time to novels by contemporary British writers Focusing on war fiction Alden builds upon current scholarship on historical fiction and memory studies and extends the field by exploring how the use of historical research within fiction illuminates the ways in which we remember and recreate the past Using postmemory to unlock both the transgenerational aspects of the novels discussed and the development of historiographic metafiction Alden provides a ground breaking analysis of the nature and potential of contemporary historical fiction By examining the patterns and motivations behind authors translations of material from the historical record into fiction Alden also asks to what extent such writing is necessarily metafictional

Ultimately this study offers an updated answer to the question that historical fiction has always posed what can fiction do with history that history cannot **On War and Leadership** Michael Owen Connelly, 2009-01-10 What can we learn about leadership and the experience of war from the best combat leaders the world has ever known This book takes us behind the scenes and to the front lines of the major wars of the past 250 years through the words of twenty combat commanders What they have to say which is remarkably similar across generational national and ideological divides is a fascinating take on military history by those who lived it It is also worthwhile reading for anyone from any walk of life who makes executive decisions The leaders showcased here range from Frederick the Great to Norman Schwarzkopf They include such diverse figures as Napoleon Bonaparte commanders on both sides of the Civil War William Tecumseh Sherman and Stonewall Jackson German and American World War II generals Rommel and Patton a veteran of the Arab Israeli wars Moshe Dayan and leaders from both sides of the Vietnam War Vo Nguyen Giap and Harold Moore What they have had in common is an unrivaled understanding of the art of command and a willingness to lead from the front All earned the respect and loyalty of those they led and moved them to risk death The practices of these commanders apply to any leadership situation whether military business political athletic or other Their words reveal techniques for anticipating the competition leading through example taking care of the troops staying informed turning bad luck to advantage improvising and making bold decisions Leader after leader emphasizes the importance of up front muddy boots leadership and reveals what it takes to persevere and win Identifying a pattern of proven leadership this book will benefit anyone who aspires to lead a country a squadron a

company or a basketball team It is a unique distillation of two and a half centuries of military wisdom *War in European History* Michael Howard,2009-02-26 First published over thirty years ago *War in European History* is a brilliantly written survey of the changing ways that war has been waged in Europe from the Norse invasions to the present day Far more than a simple military history the book serves as a succinct and enlightening overview of the development of European society as a whole over the last millennium From the Norsemen and the world of the medieval knights through to the industrialized mass warfare of the twentieth century Michael Howard illuminates the way in which warfare has shaped the history of the Continent its effect on social and political institutions and the ways in which technological and social change have in turn shaped the way in which wars are fought This new edition includes a fully updated further reading and a new final chapter bringing the story into the twenty first century including the invasion of Iraq and the so called War against Terror **Ben Macintyre's Espionage Files** Ben Macintyre,2012-11-18 Agent Zigzag One December night in 1942 a Nazi parachutist landed in a Cambridgeshire field His mission to sabotage the British war effort His name was Eddie Chapman but he would shortly become MI5 s Agent Zigzag Dashing and louche courageous and unpredictable inside the traitor was a hero inside the villain a man of conscience the problem for Chapman his many lovers and his spymasters was knowing where one ended and the other began Ben Macintyre weaves together diaries letters photographs memories and top secret MI5 files to create the exhilarating account of Britain s most sensational double agent Operation Mincemeat One overcast April morning in 1943 a fisherman notices a corpse floating in the sea off the coast of Spain When the body is brought ashore he is identified as a British soldier Major William Martin of the Royal Marines A leather attach case secured to his belt reveals an intelligence goldmine top secret documents Allied invasion plans But Major William Martin never existed The body is that of a dead Welsh tramp and every single document is fake Operation Mincemeat is the incredible true story of the most extraordinary deception ever planned by Churchill s spies an outrageous lie that travelled from a Whitehall basement all the way to Hitler s desk Double Cross D Day 6 June 1944 the turning point of the Second World War was a victory of arms But it was also a triumph for a different kind of operation one of deceit At the heart of the deception was the Double Cross System a team of double agents whose bravery treachery greed and inspiration succeeded in convincing the Nazis that Calais and Norway not Normandy were the targets of the 150 000 strong Allied invasion force These were not conventional warriors but their masterpiece of deceit saved thousands of lives Their codenames were Bronx Brutus Treasure Tricycle and Garbo This is their story **War in the Modern World since 1815** Jeremy Black,2013-10-11 Conflict is central to human history It is often the cause course and consequence of social cultural and political change Military history therefore has to be more than a technical analysis of armed conflict *War in the Modern World since 1815* addresses war as a cultural phenomenon discusses its meaning in different societies and explores the various contexts of military action **The Kremlin's Confidant** David S Tonge,2024-07-30 Martin Packard is an extraordinary man who has led an extraordinary life An idealist and a man of liberal
