Potts, P.A. Byrne, Richard G. Nilges, R.G. Nilges, 2001-11-30 Beyond Brain Death offers a provocative challenge to one of the most widely accepted conclusions of contemporary bioethics the position that brain death marks the death of the human person Eleven chapters by physicians philosophers and theologians present the case against brain based criteria for human death Each author believes that this position calls into question the moral acceptability of the transplantation of unpaired vital organs from brain dead patients who have continuing function of the circulatory system One strength of the book is its international approach to the question contributors are from the United States the United Kingdom Liechtenstein and Japan This book will appeal to a wide audience including physicians and other health care professionals philosophers theologians medical sociologists and social workers Handbook of Death and Dying Clifton D. Bryant, 2003-10 Dying is a social as well as physiological phenomenon Each society characterizes and consequently treats death and dying in its own individual ways ways that differ markedly These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work This two volume handbook will provide direction and momentum to the study of death related behavior for many years to come Key Features More than 100 contributors representing authoritative expertise in a diverse array of disciplines Anthropology Family Studies History Law Medicine Mortuary Science Philosophy Psychology Social work Sociology Theology A distinguished editorial board of leading scholars and researchers in the field More than 100 definitive essays covering almost

every dimension of death related behavior Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern Journal article length essays that address topics with appropriate detail Multidisciplinary and cross cultural coverage Cumulated Index Medicus ,1985 The Neurology of Consciousness Steven Laureys, Giulio Tononi, 2011-04-28 Understanding consciousness is the major unsolved problem in biology One increasingly important method of studying consciousness is to study disorders of consciousness e g brain damage and disease states leading to vegetative states coma minimally conscious states etc Many of these studies are very much in the public eye because of their relationship to controversies about coma patients e g Terry Schiavo case in the US recently and the relationship to one of the major philosophical sociological political and religious questions of humankind This is the first book to summarize our current understanding of the neuroanatomical and functional underpinnings of human consciousness by emphasizing a lesional approach offered via the study of neurological patients The selected contributors are all outstanding authors and undisputed leaders in their field New chapters on the neuroanatomical basis of consciousness functional intrinsic brain activity anesthesia as well as expanded coverage of the unresponsive wakefulness syndrome vegetative state and the minimally conscious state The first comprehensive authoritative collection to describe disorders of consciousness and how they are used to study and understand the neural correlates of conscious perception in humans Includes revised and new chapters from the top international researchers in the field **Death, Mourning, and Burial** Antonius C. G. M. Robben, 1991-01-16 The definitive reference on the anthropology of death and dying expanded with new contributions covering everything from animal mourning to mortuary cannibalism Few subjects stir the imagination more than the study of how people across cultures deal with death and dying This expanded second edition of the internationally bestselling *Death Mourning and Burial* offers cross cultural readings that span the period from dying to afterlife considering approaches to this transition as a social process and exploring the great variations of cultural responses to death Exploring new content including organ transplantation institutionalized care for the dying HIV AIDs animal mourning and biotechnology this text retains classic readings from the first edition and is enhanced by sixteen new articles and two new sections which provide increased breadth and depth for readers *Death Mourning and Burial* Second Edition is divided into eight parts reflecting the social trajectory of death conceptualizations of death death dying and care grief and mourning mortuary rituals and remembrance and regeneration Sections are introduced through foundational texts which provide the ideal introduction to this diverse field It is essential reading for anyone concerned with issues of death and dying as well as violence terrorism war state terror organ theft and mortuary rituals A thoroughly revised edition of this classic anthology featuring twenty three new articles two new sections and three reformulated sections Updated to include current topics including organ transplantation institutionalized care for the dying HIV AIDs animal mourning and biotechnology Must reading for anyone concerned with issues of death and dying as well as violence terrorism war state terror organ theft and mortuary rituals
