Romance and Sex in Adolescence and Emerging Adulthood Alan Booth, Ann C. Crouter, Anastasia Snyder, 2015-12-07 In this classic edition top scholars in family research examine the nature and origin of adolescents contemporary patterns of sexual and romantic relationships from the evolutionary roots of these behaviors to policies and programs that represent best practices for addressing these issues in schools and communities The text offers interdisciplinary expertise from scholars of psychology social work sociology demography economics human development and family studies and public policy Adolescents and young adults today face very different choices about family formation than did their parents generation given such societal changes as the rise in cohabitation the increase in divorce rates and families having fewer children This book examines these demographic trends and provides a backdrop against which adolescents and emerging adults form and maintain romantic and sexual relationships This book addresses such questions as What are the ways in which early family and peer relationships give rise to romantic relationships in the late adolescent and

early adult years How do early romantic and sexual relationships influence individuals subsequent development and life choices including family formation To what extent are current trends in romantic and sexual relationships in adolescence and emerging adulthood problematic for individuals families and communities and what are the most effective ways to address these issues at the level of practice program and policy Ideal as a supplement in graduate or advanced undergraduate courses on interpersonal romantic relationships adolescent development human sexuality couples and or family and conflict sociology of children and youth family therapy taught in human development and family studies clinical or counseling psychology social work sociology communications and human sexuality this book also appreciated by researchers and clinicians counselors who work with families and adolescents

Adolescent Romantic Relationships as Precursors of Healthy Adult Marriages Benjamin R. Karney, 2007 Policymakers are interested in promoting healthy marriages in adulthood by providing services to strengthen the adolescent precursors of healthy marriage especially within low income populations But if programs and curricula targeting adolescent romantic relationships are to be effective they must be grounded in an accurate understanding of how adolescent relationships function and the role that they play in the development of healthy adult marriages This report evaluates the current landscape of theory research and interventions addressing the role of adolescent romantic relationships in the development of healthy adult marriages Drawing on a thorough review of the existing theoretical and empirical literature in this area as well as interviews with practitioners directly involved with developing or administering relationship education to adolescents the authors bring together relevant research and theory from a wide range of disciplines that have examined these issues and suggest future directions for research and intervention In particular they note that although research describing romantic relationships in low income populations is sparse there are already existing nationally representative data sets that include data from substantial numbers of well sampled low income adolescents Analyses of these data would have relatively low cost and a potentially high yield for informing policies that target low income youth

Romantic Relationships and Sexuality in Adolescence and Young Adulthood Daphne van de Bongardt, Rongqin Yu, Maja Dekovic, Wim Meeus, 2018-04-19 Romantic relationship formation and the engagement in sexual behaviors are normative and salient developmental tasks for adolescents and young adults These developmental tasks are increasingly viewed from an ecological perspective thus as strongly embedded in different social contexts including the proximal social domains of parents peers and partners This volume brings together seven recent empirical studies on adolescents and young adults romantic relationships and sexuality in the context of relationships with parents peers and partners In this editorial introduction we describe two important recent changes in the theoretical perspectives on emerging romantic relationships and sexual activity from risky behaviors to normative tasks and from individual to contextualized processes We then discuss recent advances in empirical research on romantic relationships and sexuality of adolescents and young adults After that we review the seven studies in this volume and discuss the

contributions of these studies to the existing literature Finally we discuss directions for future research regarding how to further incorporate the interrelational perspective in empirical research on these topics and how to bridge the gap between the research fields on romantic relationships and sexuality This book was originally published as a special issue of the European Journal of Developmental Psychology
