Pehler**

Adolescent Health A Multidisciplinary Approach To Theory Research And Intervention:

Adolescent Health Lynn Rew, 2004-08-03 The idea is very appealing for a number of reasons Adolescent health is an area that fundamentally requires an interdisciplinary perspective in terms of both scholarly work and applied practice This book promises to deliver in terms of that kind of breadth of perspective and the author certainly has the qualifications to make real that promise of breadth as well as depth This would work well as a course text as well as for courses seminars on adolescent health adolescent behavior and adolescent development Michael D Resnick University of Minnesota How I wish this book had been available when I was a doctoral student To my knowledge there are no other books that are focused on all the different relevant adolescent health theories This is a unique work and one that has been desperately needed for a long time Elizabeth Saewyc University of Minnesota A book like this is definitely needed I have been searching for several years to find a core textbook I could use in my graduate course in adolescent health This book in combination with selected empirical readings that focus on specific health problems would be very useful I could also see this book being a useful general resource for both academics and practitioners Carolyn Tucker Halpern University of North Carolina at Chapel Hill Healthy growth and development of adolescents is an interest shared by many disciplines It has long been an area of concern for many people working with young people or studying adolescent behavior However despite the common interest each discipline has its own perspective of adolescent health and uses different terminology to communicate its concerns Adolescent Health A Multidisciplinary Approach to Theory Research and Intervention fills a gap in the literature about adolescent health for many disciplines including psychology sociology nursing medicine public health and health education Adolescent Health is a survey textbook that includes an overview of existing theories and current research on interventions that address the social morbidities and mortalities of adolescents Author Lynn Rew examines theories from a variety of professional disciplines that provide frameworks for understanding adolescent health behavior and health outcomes Each theory is presented in terms of its essential elements including its origin a brief background of the theorist s philosophical paradigm the purpose and usefulness of the theory the meaning and scope of the theory and when available empirical referents Key Features Comprehensively covers social morbidities and mortalities of adolescents including unintentional injuries suicide smoking drug and alcohol use high risk sexual activity eating disorders mental health problems runaway behavior and interpersonal violence Differentiates theory for practice from theory for research by consolidating multiple theoretical perspectives on adolescent health currently scattered across disciplinary boundaries into a single multidisciplinary volume Assists student comprehension by including chapter summaries suggestions for further study and listings of related Internet resources Adolescent Health is designed as a core textbook for advanced undergraduate and graduate students studying adolescent health health risk behavior in adolescents and adolescent problem behaviors in a wide range of disciplines such as Health Nursing Medicine Psychology Human Development and Human Services In addition it is also useful for certification courses

in many interdisciplinary adolescent health training programs The book will also be of interest to academics researchers and practitioners who are designing theoretically based interventions *Adolescent Health* Lynn Rew,2005 Covering social morbidities and mortalities of adolescents including suicide smoking high risk sexual activity eating disorders mental health problems and interpersonal violence this volume consolidates multiple theoretical perspectives **Calendar and Time Diary Methods in Life Course Research** Robert F. Belli, Frank P. Stafford, Duane F Alwin, 2009 Calendar and Diary Methods in Life Events Research offers a road map to those who wish to use calendar and diary methods in their own research Promoting Health Equity Among Racially and Ethnically Diverse Adolescents Lisa Barkley, Maria Veronica Svetaz, Veenod L. Chulani, 2018-11-09 Racial and ethnic minority youth have less access to health care and experience health disparities that are linked to social determinants that impact their health and well being This book is a practical reference for clinicians caring for racially and ethnically diverse adolescents seeking to effectively identify and address the social structures and factors that influence their health and well being to promote health equity It provides an overview of key health equity population health and cultural competency principles and highlights clinical teaching and research skills critical to promoting health equity Clinically oriented chapters provide guidance on strength based approaches and strategies that clinicians can integrate in their encounters with diverse youth and feature clinical vignettes clinical pearls and reflection questions to promote the application of concepts to practice Promoting Health Equity Among Racially and Ethnically Diverse Adolescents is a valuable resource for clinicians across all areas of medicine **Youth Digital Health and Online Platforms** Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people s use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people s agency in health and that young people can benefit from dealing with health issues with peers The work is based on the digital ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young

people **Fiction Unbound** Sebnem Toplu,2011-07-12 This book covers all Bernardine Evaristo's major works *Lara* 1997 and *Lara* 2009 *The Emperor's Babe* *Soul Tourists* *Blonde Roots* and *Hello Mum* Each chapter focuses on a particular novel combining a close analysis of the author's technique with a penetrating understanding of the basic themes which underlie all of Evaristo's work This monograph exposes that Evaristo is not simply interested in multicultural issues to label them as such is to overlook her achievement as a novelist It shows instead how Evaristo combines apparently disparate elements for example historical research with late twentieth century allusions in a narrative such as *The Emperor's Babe* to show how African Caribbeans have been coming to Britain for thousands of years Yet Evaristo is not just interested in the African Caribbean experience this book shows how she tries to question those basic concepts for example Englishness or patriotism which lie at the heart of mainstream white culture in contemporary Britain It argues that Evaristo is interested in alternative constructions not only of nationalism but of other basic issues such as race gender and class Her books give the chance for hitherto marginalized characters slaves women or victims of a patriarchal world to tell their stories and postulate alternative views of the world they live in Above all this monograph shows how Evaristo refuses to be pigeon holed she is not simply a black British writer but someone who focuses on the interconnectedness of society This book calls for readers to adopt a more enlightened approach not only to issues of culture and identity but to the work of Evaristo as a whole *International Guide to Student Achievement* John Hattie, Eric M. Anderman, 2013-01-17 The *International Guide to Student Achievement* brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs *Family Violence and Nursing Practice, Second Edition* Janice Humphreys, PhD, RN, CS, NP, Jacquelyn C. Campbell, PhD, RN, FAAN, 2010-07-28 Nurses too often encounter battered women abused children and other victims of family violence in hospital and emergency room settings Nurses therefore have a unique and important role to play in the prevention identification and mitigation of violence This newly revised second edition is a landmark resource that provides comprehensive nursing focused coverage of intimate partner violence IPV child abuse and more This textbook

provides a detailed overview of all types of family and other violence including IPV same sex IPV abuse during pregnancy intimate partner homicide stalking violence against women with disabilities dating violence child abuse children witnessing violence sexual assault of both children and adults and elder abuse The book offers both graduate and undergraduate nursing students a clear view of the essential theories interventions and issues surrounding nursing and family violence presenting an approach that empowers nurses to contribute to the prevention of this worldwide health problem Special Features Chapters on legal and forensic issues address the nurse's role and responsibilities when confronting family violence In depth attention to cultural issues promote culturally relevant practice Abundant diagrams and tables offer quick access to essential standards for care Practice assessment forms and model interventions give practical strategies for addressing family violence A new chapter describes international work in family violence

Health Disparities Among Under-served Populations Sheri R. Notaro, 2012-08-13 An anthology that critically examines the devastating impact of race class and gender on the health and health care of African Americans Latinos and American Indians with particular focus on children and adolescents It includes chapters that focus on issues such as substance abuse psychological coping trauma infant mortality and racism

Encyclopedia of Family Health Martha Craft-Rosenberg, Shelley-Rae Pehler, 2011-01-20 Request a FREE 30 day online trial to this title at www.sagepub.com/freetrial What is unique about the process in the discussion of healthcare and interventions to use when working with families What assessment tools provide guidance for healthcare providers as they determine interventions for families in their care What are the changing dimensions of contemporary family life and what impact do those dimensions have on health promotion for families How is family healthcare changing in terms of practices delivery systems costs and insurance coverage Students are able to explore these questions and more in the Encyclopedia of Family Health Approximately 350 signed articles written by experts from such varied fields as health and nursing social and behavioral sciences and policy provide authoritative cross disciplinary coverage Entries examine theory research and policy as they relate to family practice in a manner that is accessible and jargon free From Adolescent Suicide and Alternative Therapies to Visitation during Hospitalization and Weight Problems and Genetics this work provides coverage of a variety of issues within a family context The Encyclopedia of Family Health provides a comprehensive summary of theory research practice and policy on family health and wellness promotion for students and researchers
