Kern, 2016-11-01 Three weeks before Christmas on December 1 1958 one of the most horrific fires in American history broke out at Our Lady of the Angels elementary school in Chicago claiming the lives of ninety two children and three nuns Fire Angels is a fictional account of that fire It s a story of arson of bravery by parents nuns firefighters and medical professionals of a falsely accused janitor of a cover up within the Catholic Church of a judge who in having to determine the juvenile arsonist s fate is torn between loyalty to his church and justice of a tight knit community changed forever and of two survivors who fall in love Fire itself is also a central character in this story a cunning observer that comes to life whenever a flame is lit The Circus Fire Stewart O'Nan, 2008-12-10 The acclaimed author of *Emily Alone* and *Henry Himself* brings all his narrative gifts to bear on this gripping account of tragedy and heroism the great Hartford circus fire of 1944 It was a

Asbestos and Fire Rachel Maines, 2013-08-30 For much of the industrial era asbestos was a widely acclaimed benchmark material During its heyday it was manufactured into nearly three thousand different products most of which protected life and property from heat flame and electricity It was used in virtually every industry from hotel keeping to military technology to chemical manufacturing and was integral to building construction from shacks to skyscrapers in every community across the United States Beginning in the mid 1960s however this once popular mineral began a rapid fall from grace as growing attention to the serious health risks associated with it began to overshadow the protections and benefits it provided In this thought provoking and controversial book Rachel Maines challenges the recent vilification of asbestos by providing a historical perspective on Americans changing perceptions about risk She suggests that the very success of asbestos and other fire prevention technologies in containing deadly blazes has led to a sort of historical amnesia about the very risks they were supposed to reduce *Asbestos and Fire* is not only the most thoroughly researched and balanced look at the history of asbestos it is also an important contribution to a larger debate that considers how the risks of technological solutions should be evaluated As technology offers us ever increasing opportunities to protect and prevent Maines urges that learning to accept and effectively address the unintended consequences of technological innovations is a growing part of our collective responsibility

The Destroyer and the Lamb Matthias Reinhard Hoffmann, 2005 Matthias Reinhard Hoffmann identifies an angelomorphic portrait of Christ in certain passages of Revelation and provides possible reasons for the inclusion of an angelomorphic Christology Angelomorphic Christology is not regarded as an isolated christological concept In turn the author compares angelomorphic Christology with the prominent Lamb Christology of Revelation A comparison of these concepts reveals that both Lamb and angelomorphic Christology serve the purpose of contrasting different functions of Christ The functions correspond with the implied perception of Christ by his followers on the one hand and his opponents on the other Accordingly Christ appears to be an eschatological juridical figure described in angelomorphic patterns to his opposition while he is perceived as salvific redeemer in form of the Lamb by those who believe in him Such a christological perspective draws on traditions from the Exodus narrative namely the features of the Passover Lamb and the Destroying Angel Further equality between God and Christ is established despite an angelomorphic portrait of Christ especially those passages describing Christ as the Lamb put him on par with God But also within visions with an angelomorphic description of Christ his status as superior to angels and as an equal to God is displayed

The Chicago Way Don Herion, 2010-03-27 Traffic Tickets What a Pain Every police officer is issued a traffic summons book when he is assigned to a district The supervisors have what we used to call a quota on tickets issued When an officer is assigned to the traffic division he is expected to write at least eight moving violations a shift But that is all he has to do he doesn't handle any crime scenes or domestic disturbances or whatever else comes along On occasion he has to handle a traffic accident but that's about all Don't get me wrong I hated to write tickets especially moving violations like red lights speeding or no left turn Parking tickets were also a pain in the ass all they accomplish is that the poor soul that gets the ticket now hates you I guess that they are a necessity though and maybe in some way they help keep drivers from getting too crazy behind the wheel of their car or truck Personally I would rather be out in the street locking up bad guys and harassing gang bangers Some of these traffic guys really like working traffic giving out their quota of summons and putting a few drunk drivers in jail before they kill somebody or themselves People that get stopped by the police for a traffic violation really come

up with some original excuses I remember an elderly lady that we stopped for driving the wrong way on a one way street This violation is usually an open and shut case When I asked her for her driver s license and explained why we had stopped her she called me a liar and asked why wasn t I out chasing down dope dealers or communists instead of bothering a woman alone in a car trying to get home 20 DON HERION No matter what I said to her she had a look of hate in her eyes and if she had a gun she would have shot me dead When I began opening the summons book to write her the ticket she pulled an acting job on me that was a beauty The first thing she did was to roll her eyes up in her head and then grab her heart like she was going to have a heart attack right there Well needless to say she hit the right button and her act worked Even though I knew she was probably faking it I didn t want to take a chance of her dropping dead in front of me I asked her if she needed an ambulance or wanted to be taken to the nearest hospital She said that she only lived two blocks from there and that her heart pills were in her bathroom She explained that if she got them she was sure to be OK Well at this point I was pretty aggravated and couldn t imagine myself giving this wacky broad mouth to mouth resuscitation if she was telling the truth Of course I told her that we would be glad to drive her home if she couldn t drive She said no that she felt better and she thought that she could drive home OK I said OK lady under the circumstances I won t give you a ticket this time but that you had better be more alert in the future I just knew that I made this old broad s day when she thought she really bullshitted me about the heart attack To top it off when she was driving away she winked at me and said Thanks Officer have a nice day The best part of all is when I got back in the squad car my partner Bob was just shaking his head and laughing It seems that he had stopped this old witch in the past for doing the same thing and she pulled the heart attack routine on him too He admitted that he didn t want to take a chance and have the old broad drop dead on him either and gave her a pass The thing that got him was when her eyes went up in her head and all he could see was the whites of her eyes Later on we talked to a few of the other guys that were working in that part of the district and they all had stopped her for doing the same thing driving the wrong way on a one way street They all witnessed her heart attack routine and none of them gave her a ticket I thought your day will come you old bitty Not only will I give her a ticket
