Mental Models and Successful Ideas Valentin Matcas, 2016-04-20 Outstanding ideas can make you rich famous and successful in life beyond your highest expectations Just consider the most famous and successful people in art science religion politics business computers and finance to see how there are always genuine successful ideas at the base of their fame and fortune However your meaning in life may not always be about money power and success but about love family values freedom and knowledge among other lifetime achievements that can never be controlled by others regardless of how powerful wealthy or influential they are Yet power and material wealth are always used to influence every outcome of life and society forcing society to behave in a fictitious unnatural manner And now how exactly can your ideas become extraordinary enough to influence the entire society as challenged as it may be Your ideas relate directly to your needs and fulfillment while your needs and fulfillment in life determine your behavior and entire social interconnectivity Your entire lifetime behavior influences the shape and structure of society with society determining your lifestyle development and thinking as these influence your knowledge mental models and ideas along with all success that these may offer With everything related to material wealth power and influence on one side and with your ideas development lifestyle interconnectivity and reasoning on the other And this is how you are forced to behave in life not naturally but in a specific fictitious controlled manner while fulfilling your needs This is why you are deliberately made to fulfill needs by using money power and influence as these are sufficient to limit you to a lower developmental level While this happens for your outstanding ideas to keep them out of the way Because in order for others to implement their ideas in the world and become successful your own ideas must remain ignored useless and banned for as long as possible This happens just because the human timeline is unique and currently it unfolds according to very specific fictitious restraints part of an entire Fictitious Matrix which covers most of the wider world What can you do You may do nothing against an entire Fictitious Matrix including its own imposed human timeline However as a living human being you can do everything according to your own needs and meanings on Earth since Earth is yours and therefore you may always have your own thoughts and ideas in this world Have as many ideas as you want make them awesome as you persevere and develop always develop Because knowledge thinking and successful ideas are always at the roots of your achievements in life standing at the base of your cognitive system and social life and therefore influencing directly your continuous interconnectivity within your inner and outer spheres of influence If you want to have genuine successful ideas then you have to understand how you generate and control them and how your ideas integrate within your cognitive system This book describes how to conduct your mental models in order to generate successful ideas throughout life focusing on business art social interaction science sports and much more *50 Future Ideas You Really Need to Know*
