

Paragraph 2: Which elements of the argument ARE NOT convincing?

Richard Rex: The Tudors

Henry Tudor was one of the unlikeliest men ever to ascend the throne of England. Royal blood ran thin in his veins - drawn ultimately from illegitimate origins and filtered through the female line – and he was one of the few men in late medieval England with absolutely no claim to the throne whatsoever: his Beaufort ancestors, John of Gaunt's bastards by Catherine Swynford. For all the trouble Henry took to bolster his dubious legitimacy, his reign was always overshadowed by the fact that he was little more than a noble adventurer who got lucky: the first dozen years of his reign were spent scheming and fighting against pretenders whose claims were only slightly more ridiculous than his own.
