Basil Hall Chamberlain:

Collected Works of Basil Hall Chamberlain Basil Hall Chamberlain, 2000 *Basil Hall Chamberlain* Yuzo Ota, 2012-12-06 This first full length critical biography of one of the most significant figures in Japanese Studies in the last hundred years is based on an earlier work published in Japanese Iwanami Shoten 1990 Ota sees Chamberlain as a giant of his period both academically and intellectually His achievements include the first publication of a translation of the Kojiki his pioneering work as the father of Japanese linguistics and the acclaimed *Things Japanese* which served generations as an everyman encyclopaedia However Ota also acknowledges Chamberlain's vision in recognising the distinctive merits and strengths of Japanese society and culture at a time of xenophobic Europeanism made possible by the fact that Chamberlain was ahead of his times as a multi lingual and multi cultural personality [Collected Works of Basil Hall Chamberlain](#) ,2000 [Letters from Basil Hall Chamberlain to Lafcadio Hearn](#) Basil Hall Chamberlain, 1936 □□□□□□□□□□□□□□□□□□□□ Basil Hall Chamberlain, Masakazu Toyama, 1937 [Collected Works of Basil Hall Chamberlain: Moeurs et coutumes du Japon](#) Basil Hall Chamberlain, 2000 **The Invention of a New Religion** Basil Hall Chamberlain, 2020-03-16 In *The Invention of a New Religion* Basil Hall Chamberlain embarks on a provocative exploration of the intersection between spirituality and identity Leveraging his expertise in Sanskrit and Japanese culture Chamberlain critiques the mechanisms of religious formation and outlines how belief systems are not merely divinely inspired but often shaped by sociopolitical contexts The book's literary style is marked by a robust analytical approach melding historical anecdotes with philosophical observations ultimately inviting readers to reconsider the nature of faith and its pragmatic roles in society Chamberlain situates his work within a broader discourse reflecting the cultural movements of the late 19th century particularly the rise of Buddhism in the West and the search for alternative spiritualities amidst the skepticism of modernity Basil Hall Chamberlain a prominent scholar in Asian studies has profoundly influenced Western perceptions of Eastern religions through his extensive travels and deep engagement with Japanese culture His experiences living in Japan and his linguistic prowess provided him unique insights into emerging religious narratives in the West particularly as global perspectives began to evolve Chamberlain's thorough research and personal encounters with these belief systems uniquely positioned him as a critical observer and commentator upon the era's spiritual shifts I highly recommend *The Invention of a New Religion* to readers who seek a deeper understanding of the complexities of belief and identity in an increasingly pluralistic world Chamberlain's incisive analysis enables contemporary audiences to see the relevance of historical theological debates while challenging them to reflect on their own spiritual journeys [Letters from Basil Hall Chamberlain to Lafcadio Hearn, More](#) Basil Hall Chamberlain, 1992 **More Letters from Basil Hall Chamberlain to Lafcadio Hearn and Letters from M. transition stage of modern Japan makes a man feel preternaturally old for here he is in modern times with the air full of talk about bicycles and bacilli and spheres of influence and yet he can himself distinctly remember the Middle Ages The dear old Samurai who first initiated the present writer into the mysteries of the Japanese language wore a queue and two swords This relic of feudalism now sleeps in Nirvana His modern successor fairly fluent in English and dressed in a serviceable suit of dittos might almost be a European save for a certain obliqueness of the eyes and scantiness of beard Old things pass away between a night and a morning The Japanese boast that they have done in thirty or forty years what it took Europe half as many centuries to accomplish Some even go further and twit us Westerns with falling behind in the race It is waste of time to go to Germany to study philosophy said a Japanese savant recently returned from Berlin the lectures there are elementary the subject is better taught at Tokyo Thus does it come about that having arrived in Japan in 1873 we ourselves feel well nigh four hundred years old and assume without more ado the two well known privileges of old age garrulity and an authoritative air We are perpetually being asked questions about Japan Here then are the answers put into the shape of a dictionary not of words but of things or shall we rather say a guide book less to places than to subjects not an encyclop dia mind you not the vain attempt by one man to treat exhaustively of all things but only sketches of many things The old and the new will be found cheek by jowl What will not be found is padding for padding is unpardonable in any book on Japan where the material is so plentiful that the chief difficulty is to know what to omit In order to enable the reader to supply deficiencies and to form his own opinions if haply he should be of so unusual a turn of mind as to desire so to do we have at the end of almost every article indicated the names of trustworthy works bearing on the subject treated in that article For the rest this book explains itself Any reader who detects errors or omissions in it will render the author an invaluable service by writing to him to point them out As a little encouragement in this direction we will ourselves lead the way by presuming to give each reader especially each globe trotting reader a small piece of advice We take it for granted of course that there are no Japanese listening and the advice is this Whatever you do don t expatiate in the presence of Japanese of the new school on those old quaint and beautiful things Japanese which rouse your most genuine admiration Antiquated persons do doubtless exist here and there to whom Buddhist piety is precious others may still secretly cherish the swords bequeathed to them by their knightly forefathers quite a little coterie has taken up with art and there are those who practise the tea ceremonies arrange flowers according to the traditional esthetic rules and even perform the medi val lyric dramas But all this is merely a backwater Speaking generally the educated Japanese have done with their past They want to be somebody else and something else than what they have been and still partly are When Sir Edwin Arnold came to T ky he was entertained at a banquet by a distinguished company including officials journalists and professors in fact representative modern Japanese of the best class In returning thanks for this hospitality Sir Edwin made a speech in which he landed Japan to the skies and lauded it justly as the nearest earthly approach to Paradise or to Lotus land so fairy like said he is its scenery so exquisite its

art so much more lovely still that almost divine sweetness of disposition that charm of demeanour that politeness humble without servility and elaborate without affectation which place Japan high above all other countries in nearly all those things that make life worth living We do not give his exact words but we give the general drift Now do you think that the Japanese were satisfied with this meed of praise Not a bit of it Out comes an article next morning in the chief paper which had been represented at the banquet an article acknowledging indeed the truth of Sir Edwin s description but pointing out that it conveyed not praise but pitiless condemnation Art forsooth scenery sweetness of disposition cries this editor Why did not Sir Edwin praise us for huge industrial enterprises for commercial talent for wealth political sagacity powerful armaments Of course it is because he could not honestly do so He has gauged us at our true value and tells us in effect that we are only pretty weaklings
