Australia And The Non White Migrant:

Australia and the Non-white Migrant Immigration Reform Group, 1975 Examination of Australia's immigration policy advocating for an increase in the intake of non European migrants includes references to the impact of non European migration on the Aboriginal population *Australia's New Migrants* Maria Elena Indelicato, 2017-09-22 This book offers a comprehensive and critical analysis of the tropes employed in the categorization of international students living and studying in Australia Establishing the position of migrant students as subjects of the border the author employs various models of emotion in an analysis of the ways in which public debates on migration and education in Australia have problematised international students as an object of national compassion or resentment in relation to other national concerns at the time such as the country's place in the Asia Pacific region the integrity of its borders and the relative competitiveness of its economy Applying an innovative methodology which combines the breadth of a diachronic study with the depth afforded by the close analysis of a diverse range of case studies including the protests staged by Indian international students against a spate of violent attacks which led to their labelling as soft targets in national discourses Australia's New Migrants constitutes an important contribution to our understanding of the ways in which emotions shape national collectives orientation towards others As such it will appeal to scholars of sociology cultural studies and education with interests in migration race and emotion **Voices of Challenge in Australia's Migrant and Minority Press** Catherine Dewhurst, Richard

Scully, 2021-12-03 This book brings together long obscured histories to discuss Australia's cultural social and political diversity in depth The history of Australia's migrant and minority print media reveals extensive evidence for the nation's global connectedness from the colonial era to today A fascinating and complex picture of Australia's long term transnational ties emerges from the smaller enterprises of individuals and communities in the distant and more recent past This book explores the authentic voices of minority groups which challenged the dominant experiences patterns and debates that have shaped Australia

Migratory Men Garth Stahl, Yang Zhao, 2023-06-02 Foregrounding the ways in which men experience transnational migration *Migratory Men Place Transnationalism and Masculinities* considers how we conceptualise and theorise mobile men in a global context Bringing together studies from around the world e.g. Australia Pakistan Tunisia Zimbabwe and Italy this collection foregrounds how the transnational migratory experience profoundly reshapes men's complex identity practices Specifically the collection highlights how transnational migratory aspirations and experiences often lead men to reimagine local patterns of masculinity and or reaffirm prescriptive gender roles as they encounter new spaces places In presenting interdisciplinary research the international scholars consider the powerful roles of economics politics and social class in shaping masculinities Furthermore the contributors emphasise how men affectively and agentically experience migration and how interaction with new spaces places can often lead to negotiations between disempowerment and empowerment As such this collection will appeal to both non academic readers who share

transnational migratory aspirations and experiences and academic readers across the social sciences with interests in gender and sexuality migration and diaspora transnationalism and contemporary masculinities Chapter 13 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Development of British Immigration Law Vaughan Bevan, 2022-11-16 The Development of British Immigration Law 1986 examines the policies and laws of immigration law in the UK It demonstrates that many modern issues have historical precedents The justifications for immigration control are examined and linked to a discussion of nationality law and race relations It is argued that the laws and practices of immigration are unnecessarily rigid and racist both in design and in effect that the record of the UK is a sorry chapter in the field of human rights but one which is consistent with international state practice that immigration is an ideal model to illustrate the UK's general treatment of civil liberties Particular aspects of the subject are examined in depth to illustrate the attitudes of government the courts and civil servants
