Australian Studies Acquisition And Collection Development For Libraries:

Collection Development Maureen Pastine, 2024-11-15 A guide to balancing traditional collection issues with electronic access and document delivery demands Collection Development Access in the Virtual Library helps librarians find solutions and approaches for dealing with changes occurring in interlibrary loan regional consortia commercial vendor relations and ownership versus access Its sophisticated analyses offer you clarity of vision the wisdom of experience and solid advice as you are transported into the virtual library environment with its variety of expectations service complexities and information technologies Interested in reducing local collecting costs while expanding the universe of information and knowledge available to your primary clientele Collection Development will show you just how many options are out there for enhancing your virtual environment as it explores teaching your users advancing bibliographical retrieval and assessment methodologies the delivery of library resources electronically for distributed learning distance education conducting CD Rom collection development comparisons planning space for a more technologically oriented research environment enriching your on line catalog with contents pages and new indexing capabilities the impact of change and shifting paradigms on public services staffing the development of good electronic presentation design Still not convinced that this is the book you need to improve access in your library Think again Collection Development will help you with library control and ordering articles via commercial document delivery it will help you develop coherent and intuitive ways of organizing and presenting available electronic resources it will help you work with administrators and funding agents to attain a balance between traditional library resources and emerging information technologies and much much more *Australian Studies* G. E. Gorman, 1992 This is a single volume guide to acquisition and collection development in the field of Australian studies This book contains 18 contributions by Australianists and librarians It looks at the nature and growth of Australian studies surveys Australian publishing from historical and practitioner standpoints and examines the acquisition of Australiana through a series of theme papers which focus on some of the world s greatest collections **APAIS 1992: Australian public affairs information service** , APAIS 1994: Australian public affairs information service , *APAIS 1991: Australian public affairs information service* , Australian National Bibliography: 1992 National Library of Australia, 1988 **History of the Book in Australia Volume 3** Craig Munro, 2006-07 This new volume in UQP s History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day In the immediate postwar era most books were imported into a colonial market dominated by British publishers Paper Empires traces this fascinating and volatile half century using wide ranging research oral history and memoir to explore the worlds of book publishing selling and reading After 1945 Australian publishing went from a handful of fledgling businesses to the billion dollar industry of today with thousands of new titles each year and a vast array of imported books Publishing s postwar expansion began with the baby boom and the increased demand for school texts with independent houses blossoming during the 1960s and 70s followed by

the current era dominated by global conglomerates All aspects of print culture are explored from authorship and editing to bookselling libraries and reading habits in the context of today s rapidly changing publishing landscape with its many technological challenges A wide range of expert contributors including book trade practitioners have produced this lively and indispensable account of our vital cultural industry Collection Management John Kennedy,2006-06-01 The rapidly increasing reliance on digital rather than print based resources has not diminished the importance of library collection management but it has required significant modification in the thinking and the practice of collection managers who today usually have to consider their clients need for both print based and digital materials This updated edition aims to provide a concise overview of the major elements of contemporary collection management of print and digital resources including policy formulation selection acquisition evaluation preservation deselection and cooperative collecting in a way which aims to be of interest to the student and to any other reader seeking an understanding of a particularly dynamic area of librarianship Much that has been previously published on collection management focuses on academic libraries particularly those in North America This book places greater emphasis on the experiences of smaller public and special libraries and attempts to view its subject from the perspective of libraries in Australia and other countries geographically remote from North America and Western Europe Dr John Kennedy has taught collection management at Charles Sturt University for over a decade and has produced several previous publications on the subject **Education for Library and Information Services, Australia** ,1997 *Collection Development in a Digital Environment* Sul H Lee,2023-05-31 Librarians and other library professionals will find this informative book chock full of thought provoking papers that will help you find new solutions to the collection development problems your library may experience while facing this new digital age Collection Development in a Digital Environment is a result of papers presented at the 1998 University of Oklahoma Libraries Conference You will discover ways to help your library take the lead in advancing the academic agenda through technology while at the same time leaning how technology requires change in the way libraries themselves operate Collection Development in a Digital Environment explores ethical and technological dilemmas of collection development and gives several suggestions on how your library can successfully deal with these challenges and provide patrons with the information they need This guide covers many valuable ways that your library can be better prepared for developing a user friendly collection of materials in this new digital age You will discover how methods to shift your library from buying materials for collections for faculty or students that may need them sporadically to a system of responsiveness and customization where just in time and just for you are the standards of information access making you and your library both time effective and cost effective Collection Development in a Digital Environment brings to light many ways in which libraries can improve collection development methods such as using the Association of Research Libraries ARL initiatives to improve global access to information such as the Global Resources Program which features a seamless web of interconnected coordinated and interdependent research collections that are

electronically accessible to users examining discussions on scenario driven planning and the benefits of having your patrons let you know what they are interested in instead of guessing what materials they may be interested in analyzing the influence of the World Wide Web on the role of libraries to discover how you can use these ideas to expand the collection of materials in your library gaining insight into how the concept of disintermediation in the publishing process will help libraries use the electronic environment to eliminate intermediate sources and collect materials directly from the publisher thus saving time and money From the insightful chapters in Collection Development in a Digital Environment you will find new and successful ways to use the new digital environment to enhance collection development in your library This unique book will help your library be more digitally accessible while still being user friendly to your clientele
