

Authentic Congregations

"At a time in which our congregations are entering the stronger new world of the twenty-first century, and those of 'good will' are glacially reduced, it is an exciting moment of Christian leadership in local congregations and as a challenge to Presbyterians to renew their congregations for a new century and a new millennium."

—James Hoggan, author of *Authentic Congregations*
Presbyterian Board of Christian Education

James Hoggan believed it is time for a renewed emphasis on congregations in the life of the Presbyterian Church, and so in this book he challenges Presbyterians to evaluate congregational leadership, organization, and mission for greater impact in a changing world. *Authentic Congregations* is a book of "authentic congregations" in which Presbyterians can recognize their own responding creatively and effectively to their local contexts. The book draws insights for all congregations desiring more vital worship, service, and witness. He explores some of the commercial issues facing the church today and offers solutions that congregations should have to engage their issues and to develop faithful structures to challenging times.

This is an important book for all pastors, church officers, and other leaders who wish to help revitalize their congregations.

Douglas Powe Jr., Jasmine Smothers, 2015-01-06 Congregations say they want to reach new and younger people many of whom are simply turned off by church The big idea is that congregations must be willing to embrace radical ways to connect with new generations Re thinking old assumptions is a starting place but more is needed To really connect congregations have to move beyond and start doing new things that are out of their comfort zones These authors give ten ways to help you move from just saying what you intend to actually doing it This book provides tools to help churches re frame the Good News in non traditional ways and study questions for church leadership teams A New Model of the Authentic Church Robert Fuggi, 2018-02-08 In American church culture worldly benchmarks of achievement have all but blinded us to the true purpose of the body of Christ A New Model of the Authentic Church may be one of the most significant books written on the American church in decades It not only offers a scholarly analysis of the current state of the church but provides practical solutions The book offers a brilliantly well developed model for how to make church work more effectively If implemented it would provide a much needed paradigm shift in how we do church in America The book's main contribution is that it provides a workable framework not only on how to birth new missionally minded churches but how to reform existing ones back to the Authentic Church of the gospels If its principles are taken and applied the book could alter the landscape of the American church which will be a breath of fresh theological air to a church that has lost its way in the new millennium The purpose of this book is not to just challenge and change the status quo its goal is to bring a real lasting transformation to how we do church The aspiration in writing this book is for it to be seen and read not just as a critical assessment of the condition of the American church but as a practical blueprint that will provide much renewed hope and purpose to the contemporary American church the bride of Christ Globequake Wallace Henley, 2012 From globalization to the digital revolution secularization to the great recession change has never happened so fast and wide and deep as we have seen in recent years The nature of information and the speed with which it travels is unparalleled and it is changing our world in seismic ways that reach into every crevice of our lives It's as if the tectonic plates of society and culture are being torn apart and reshaped right under our feet We are living through a cultural

McRae,2014-01-30 The content of the gospel never changes however communicating it constantly fluctuates Conveying the gospel to a homeless hungry woman may include providing a hot bowl of chili while an agnostic co worker might be open after several rounds of golf The message is the same but the method of communicating it is as wide and varied as life itself Finding the correct method is like hitting the sweet spot on a tennis racket or golf club It takes time study and practice but once you find it you have more success The sweet spot in missions is called contextualization and involves much more than learning a new language It means knowing a country s religious political and social conditions Correct theology financial backing and language acquisition are meaningless without contextualization This book tells the story of a German organization struggling to contextualize the gospel in a very hostile environment Its mission was to revive a dying church characterized by centuries old religious pride and pluralism This study details the challenges of faithfully communicating the gospel in a post Christian culture and serves as a study to enable missionaries to recognize and respond to cultural issues affecting the contextualization process Mediating Institutions Malcolm Torry,2016-07-06 This original book studies a wide variety of mediating institutions both organizational and non organizational in workplaces residential areas and in wider society Focusing upon institutions in the Thames Gateway and with case studies across south east London Europe and the USA Meditating Institutions highlights the importance of understanding creating and maintaining these organizations that facilitate relationships between religious institutions and others within society Discussing their structures and activities the author asserts that good relationships between religious institutions and other groups in our society are essential for a cohesive and peaceful society **Essays on the Real Church** Dirk J. Smit,2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God s Word ecclesia reformata semper reformanda secundum verbum Dei Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called Sanctorum Communio the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions

statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways *The Strategically Small Church* Brandon J.

O'Brien,2010-08-01 Brandon O'Brien helps pastors and church leaders understand that a smaller church is sometimes better than a big one He demonstrates the strengths of small congregations including that today's church shoppers want services that are local personal and intimate Also small churches provide space to nurture close relationships across age and lifestyle barriers and they facilitate a higher level of commitment from laypeople And small church budgets are often more effective because of greater efficiency The Strategically Small Church will encourage small church pastors in their ministries and challenge them to play to their strengths **Dear Church** Sarah Raymond Cunningham,2006 Through this series of letters from a former emergent church staffer to the global church she's not always sure she wants to be a part of this volume invites every person to engage their own disappointments and journey through disillusionment and back again
