Burying Caesar:

Winston's Bandits Adrian Phillips, 2024-08-29 T Though today he is hailed as one of Britain's greatest leaders throughout his career Winston Churchill was an outsider accumulating a reputation for bad judgement and untrustworthiness Only risk takers and fellow outsiders would back him but these strong and often feuding personalities proved to be vital to his decision making in war and peace alike Winston's *Bandits* provides for the first time a detailed account of his greatest friendships These friends were Max Aitken Lord Beaverbrook a press baron who craved power but only on his own terms Frederick Lindemann later Lord Cherwell an ascetic and quarrelsome scientist who believed in Churchill's intellectual genius Brendan Bracken an Irishman from a humble background who reinvented himself as a major force in financial publishing and gave Churchill unconditional support the young Bob Boothby who would earn notoriety for adventurous sexual conduct and dubious financial dealings Randolph Churchill who was often a disappointment and burden to his father and Duncan Sandys who reaped the full benefits of being Churchill's son in law in his political career Together they were Winston's bandits This remarkable book explores how Churchill's relationships with these forceful and intriguing sparring partners provide the key to understanding his greatest triumphs and disasters

Indispensable Gautam Mukunda, 2012-08-14 Will your next leader be insignificant or indispensable The importance of leadership and the impact of individual leaders has long been the subject of debate Are they made by history or do they make it In *Indispensable* Harvard Business School professor Gautam Mukunda offers an enticingly fresh look at how and when individual leaders really can make a difference By identifying and analyzing the hidden patterns of their careers and by exploring the systems that place these leaders in positions of power *Indispensable* sheds new light on how we may be able to identify the best leaders and what lessons we can learn from both the process and the result Profiling a mix of historic and modern figures from Thomas Jefferson and Abraham Lincoln to Winston Churchill and Judah Folkman and telling the stories of how they came to power and how they made the most important decisions of their lives *Indispensable* reveals how when and where a single individual in the right place at the right time can save or destroy the organization they lead and even change the course of history *Indispensable* will also help you understand this new model so you can use it in your own life whether you're a citizen casting a ballot an executive choosing your next CEO or a leader trying to make your mark

Chamberlain Graham Macklin, 2006-11 With the agreement at Munich in 1938 he effectively abandoned Czechoslovakia but immediately accelerated Britain's rearmament programme and the following year declared that Britain would defend Poland This commitment led in September 1939 to the start of World War II

The Second World War Chris Bambery, 2014-05-08 The Second World War casts a long shadow portrayed as a necessary and paradigmatic war that defeated fascism During recent wars in Iraq Afghanistan and elsewhere US presidents and British prime ministers have tried to claim they were following in the footsteps of Winston Churchill by standing up to dictators In *The Second World War* Chris Bambery tests this position in a thorough account of the war and demonstrates why it continues

to dominate TV history channels and school history books Arguing that the conflict was as much about a division of the world between the great powers as it was as a rising of ordinary people against fascism he offers a nuanced and radical analysis that sets the book apart from conventional histories of the war *The End is Nigh* Robert Crowcroft,2019 The tale of the relentless intrigue burning ambition and bitter rivalry in British politics during the years preceding the Second World War exploring the interaction between Westminster and a world primed to explode **Churchill** Samantha Heywood,2003-12-08 Examining the influential career of Winston Churchill this new book discusses his career from Secretary of State for War and Air to British Prime Minister during the Second World War and from 1951-55 **The Greatest Briton** Jeremy Havardi,2010-02-01 Considered one of the most controversial figures in modern history highly revered by some and heavily criticized by others Winston Churchill is defended in this collection of essays covering a variety of topics throughout his life Arranged in chronological order to show his life and career in context of 20th century world history these short essays are both detailed and analytical while still being highly accessible for a general audience Each essay answers a specific historical question about Churchill and argues that not only should he be remembered for his domestic policy alongside his wartime achievements but that he also anticipated a number of issues and debates facing the world today *Rethinking Workplace Regulation* Katherine V.W. Stone,Harry Arthurs,2013-02-14 During the middle third of the 20th century workers in most industrialized countries secured a substantial measure of job security whether through legislation contract or social practice This standard employment contract as it was known became the foundation of an impressive array of rights and entitlements including social insurance and pensions protection against unsociable working conditions and the right to bargain collectively Recent changes in technology and the global economy however have dramatically eroded this traditional form of employment Employers now value flexibility over stability and increasingly hire employees for short term or temporary work Many countries have also repealed labor laws relaxed employee protections and reduced state provided benefits As the old system of worker protection declines how can labor regulation be improved to protect workers In *Rethinking Workplace Regulation* nineteen leading scholars from ten countries and half a dozen disciplines present a sweeping tour of the latest policy experiments across the world that attempt to balance worker security and the new flexible employment paradigm Edited by noted socio legal scholars Katherine V W Stone and Harry Arthurs *Rethinking Workplace Regulation* presents case studies on new forms of dispute resolution job training programs social insurance and collective representation that could serve as policy models in the contemporary industrialized world The volume leads with an intriguing set of essays on legal attempts to update the employment contract For example Bruno Caruso reports on efforts in the European Union to constitutionalize employment and other contracts to better preserve protective principles for workers and to extend their legal impact The volume then turns to the field of labor relations where promising regulatory strategies have emerged Sociologist Jelle Visser offers a fresh assessment of the Dutch version of the flexicurity model which attempts to balance the

rise in nonstandard employment with improved social protection by indexing the minimum wage and strengthening rights of access to health insurance pensions and training Sociologist Ida Regalia provides an engaging account of experimental local and regional pacts in Italy and France that allow several employers to share temporary workers thereby providing workers job security within the group rather than with an individual firm The volume also illustrates the power of governments to influence labor market institutions Legal scholars John Howe and Michael Rawling discuss Australia's innovative legislation on supply chains that holds companies at the top of the supply chain responsible for employment law violations of their subcontractors Contributors also analyze ways in which more general social policy is being renegotiated in light of the changing nature of work Kendra Strauss a geographer offers a wide ranging comparative analysis of pension systems and calls for a new model that offers flexible pensions for flexible workers With its ambitious scope and broad inquiry *Rethinking Workplace Regulation* illustrates the diverse innovations countries have developed to confront the policy challenges created by the changing nature of work The experiments evaluated in this volume will provide inspiration and instruction for policymakers and advocates seeking to improve worker's lives in this latest era of global capitalism

The Postwar Moment Isser Woloch, 2019-01-22 An incisive comparative study of the development of Post World War II progressive politics in Britain France and the United States Toward the end of World War II the three democracies faced a common choice return to the civic order of prewar normalcy or embark instead on a path of progressive transformation In this ambitious and original work Isser Woloch assesses the progressive agendas that crystallized in each of the allied democracies their roots in the interwar decades their development during wartime the struggles to enact them in the early postwar years and the mixed outcomes in each country *The Postwar Moment* examines three progressive postwar manifestos that reveal a common agenda in the three nations The issues at stake included priorities for reconstruction or reconversion full employment via economic planning price controls the roles of trade unions expansion of social security national health care public housing and educational reform A highly regarded scholar of European history Woloch persuasively adds the United States to a discussion that is usually focused solely on Europe

Fighting Churchill, Appeasing Hitler Adrian

Phillips, 2019-10-08 In *Fighting Churchill Appeasing Hitler* Adrian Phillips presents a radical new view of the British policy of appeasement in the late 1930s No one doubts that appeasement failed but Phillips shows that it caused active harm even sabotaging Britain's preparations for war He goes far further than previous historians in identifying the individuals responsible for a catalogue of miscalculations deviousness and moral surrender that made the Second World War inevitable and highlights the alternative policies that might have prevented it Phillips outlines how Prime Minister Neville Chamberlain and his chief advisor Sir Horace Wilson formed a fatally inept two man foreign policy machine that was immune to any objective examination criticism or assessment ruthlessly manipulating the media to support appeasement while batting aside policies advocated by Winston Churchill the most vocal opponent of appeasement Churchill understood that Hitler was the

implacable enemy of peace and Britain but Chamberlain and Wilson were terrified that any display of firmness would provoke him For the first time Phillips brings to light how Wilson and Churchill had been enemies since an incident early in their careers and how eventually opposing Churchill became an end in itself Featuring new revelations about the personalities involved and the shameful manipulations and betrayals that went into appeasement including an attempt to buy Hitler off with a ruthless colonialist deal in Africa Fighting Churchill Appeasing Hitler shines a compelling and original light on one of the darkest hours in British diplomatic history
