

1659: THE CRISIS OF THE COMMONWEALTH

Ruth E. Meyers

1659 The Crisis Of The Commonwealth

William White

1659 The Crisis Of The Commonwealth:

1659 Ruth Elisabeth Mayers,2004 In a comprehensive examination of the restored Commonwealth Dr Mayers redresses that imbalance She explores in turn the sources of the Republic s adverse reputation Parliament s domestic priorities internal dynamics and relations with the Army the City of London and the English and Welsh provinces as well as foreign policy the challenge of ruling Scotland Ireland and the colonies and the sophisticated republican endeavour to imagine the future constitution and project a positive political identity through ceremonial iconography and the print debates **Oliver**

Cromwell's Kin, 1643-1726 David Farr,2023-07-07 This study centres around three leading military statesmen who served under Oliver Cromwell but were also his kin and shared the experiences of the civil wars John Disbrowe 1608 80 Henry Ireton 1611 51 and Charles Fleetwood 1618 92 It seeks to develop our picture of their positions from the context of their kin link to Cromwell and how their private worlds shaped their public roles how kinship was part of the functioning of the Cromwellian state how they were seen and presented and how this impacted on their own lives and their kin before and after the Restoration Cromwell s career can be explored further by considering figures in his kinship network to show how the public and private overlapped and influenced each other through their interaction before and after 1660 This study aims to consider the trajectory of elements of Cromwell s network and how its functioning and the interaction of its constituent parts over time shaped the politics of the years 1643 to 1660 but also how the survival of some networks after 1660 were continuing communities of those willing to own their memories of the civil wars regicide and Cromwell A study of aspects of Cromwell s kin also provides examples of the continuities between those who resisted the Stuarts in the 1640s and 1650s and did so again in the 1680s Suitable for specialists in the area and students taking courses on early modern British European and American history as well as those with a more general interest in the period **The Ashgate Research Companion to**

John Owen's Theology Mr Mark Jones,Mr Kelly M Kapic,2015-07-28 As a revival in Owen studies and reprints has taken place this much needed Companion by an international group of leading scholars helpfully explores key questions related to Owen s method theology and pastoral practice Examining his thought through such topics as his epic work on the Holy Spirit his developed view of faith and reason and his contribution to the place of toleration this book offers an authoritative exploration of Britain s greatest theologians **The Army in Cromwellian England, 1649-1660** Henry Reece,2013-01-24

From 1649 to 1660 England was ruled by a standing army for the only time in its history This is the first study to describe the nature of that experience both for members of the army and for civilian society It offers new perspectives on Oliver Cromwell the Major Generals and the reasons for the restoration of the Stuart monarchy in 1660 *The Fall* Henry Reece,2024-06-18 Why did England s one experiment in republican rule fail Oliver Cromwell s death in 1658 sparked a period of unrivalled turmoil and confusion in English history In less than two years there were close to ten changes of government rival armies of Englishmen faced each other across the Scottish border and the Long Parliament was finally dissolved after two decades Why

was this period so turbulent and why did the republic backed by a formidable standing army come crashing down in such spectacular fashion In this fascinating history Henry Reece explores the full story of the English republic's downfall Questioning the accepted version of events Reece argues that the restoration of the monarchy was far from inevitable and that the republican regime could have survived long term Richard Cromwell's Protectorate had deep roots in the political nation the Rump Parliament mobilised its supporters impressively and the country showed little interest in returning to the old order until the republic had collapsed This is a compelling account that transforms our understanding of England's short lived period of republican rule

Loyalty, memory and public opinion in England, 1658-1727 Edward

Vallance, 2019-05-10 This book makes an important contribution to the ongoing debate over the emergence of an early modern public sphere Focusing on the petition like form of the loyal address it argues that these texts helped to foster a politically aware public by mapping shifts in the national mood Covering addressing campaigns from the late Cromwellian to the early Georgian period the book explores the production presentation subscription and publication of these texts It argues that beneath partisan attacks on the credibility of loyal addresses lay a broad consensus about the validity of this political practice Ultimately loyal addresses acknowledged the existence of a political public but did so in a way which fundamentally conceded the legitimacy of the social and political hierarchy They constituted a political form perfectly suited to a fundamentally unequal society in which political life continued to be centered on the monarchy

God's Instruments Blair Worden, 2012-03-22 The Puritan Revolution escaped the control of its creators The parliamentarians who went to war with Charles I in 1642 did not want or expect the fundamental changes that would follow seven years later the trial and execution of the king the abolition of the House of Lords and the creation of the only republic in English history There were startling and unexpected developments too in religion and ideas the spread of unorthodox doctrines the attainment of a wide measure of liberty of conscience and new thinking about the moral and intellectual bases of politics and society God's Instruments centres on the principal instrument of radical change Oliver Cromwell and on the unfamiliar landscape of the decade he dominated from the abolition of the monarchy in 1649 to the return of the Stuart dynasty in 1660 Its theme is the relationship between the beliefs or convictions of politicians and their decisions and actions Blair Worden explores the biblical dimension of Puritan politics the ways that a belief in the workings of divine providence affected political conduct Cromwell's commitment to liberty of conscience and his search for godly reformation through educational reform the constitutional premises of his rule and those of his opponents in the struggle for supremacy between parliamentary and military rule and the relationship between conceptions of civil and religious liberty The conflicts Worden reconstructs are placed in the perspective of long term developments of which many historians have lost sight The final chapters turn to the guiding convictions of two writers at the heart of politics John Milton and the royalist Edward Hyde Earl of Clarendon Material from previously published essays much of it expanded and extensively revised comes together with newly written

chapters to bring fresh evidence and argument to a period of lively debate and interest **The Lord's battle** William White, 2023-04-25 This book explores the preaching and printing of sermons by royalists during the English Revolution While scholars have long recognised the central role played by preachers in driving forward the parliamentary war effort the use of the pulpit by the king's supporters has rarely been considered The Lord's battle however argues that the pulpit offered an especially vital platform for clergymen who opposed the dramatic changes in Church and state that England experienced in the mid-seventeenth century It shows that royalists after 1640 were moved to rethink earlier attitudes to preaching and print as the unique potential for sermons to influence both popular and elite audiences became clear As well as contributing to our understanding of preaching during the Civil Wars therefore this book engages with recent debates about the nature of royalism in seventeenth-century England *The Nature of the English Revolution Revisited* Stephen Taylor, Grant Tapsell, 2013 The nature of the 17th-century English revolution remains one of the most contested of all historical issues Scholars are unable to agree on what caused it when precisely it happened how significant it was in terms of political, social, economic and intellectual impact or even whether it merits being described as a revolution at all This volume brings together new essays by a group of leading scholars of the revolutionary period and will provide readers with a provocative and stimulating introduction to current research **The Oxford Handbook of Milton** Nicholas McDowell, Nigel Smith, 2009-11-19 Four hundred years after his birth John Milton remains one of the greatest and most controversial figures in English literature The Oxford Handbook of Milton is a comprehensive guide to the state of Milton studies in the early twenty-first century bringing together an international team of thirty-five leading scholars in one volume The rise of critical interest in Milton's political and religious ideas is the most striking aspect of Milton studies in recent times a consequence in great part of the increasingly fluid relations between literary and historical study The Oxford Handbook both embodies the interest in Milton's political and religious contexts in the last generation and seeks to inaugurate a new phase in Milton studies through closer integration of the poetry and prose There are eight essays on various aspects of *Paradise Lost* ranging from its classical background and poetic form to its heretical theology and representation of God There are sections devoted both to the shorter poems including *Lycidas* and *Comus* and the final poems *Paradise Regained* and *Samson Agonistes* There are also three sections on Milton's prose: the early controversial works on church government, divorce and toleration including *Areopagitica*; the regicide and republican prose of 1649-1660; the period during which he served as the chief propagandist for the English Commonwealth and Cromwell's Protectorate; and the various writings on education, history and theology The opening essays explore what we know about Milton's biography and what it might tell us; the final essays offer interpretations of aspects of Milton's massive influence on later writers including the Romantic poets

Yeah, reviewing a ebook **1659 The Crisis Of The Commonwealth** could build up your close contacts listings. This is just one of the solutions for you to be successful. As understood, carrying out does not recommend that you have fantastic points.

Comprehending as capably as treaty even more than supplementary will come up with the money for each success. bordering to, the broadcast as with ease as acuteness of this 1659 The Crisis Of The Commonwealth can be taken as with ease as picked to act.
