1933 Die Nationale Erhebung:

The Cigar Factory of Isay Rottenberg Hella Rottenberg, Sandra Rottenberg, 2022-01-11 In 1932 Isay Rottenberg a Jewish paper merchant bought a cigar factory in Germany Deutsche Zigarren Werke When his competitors supported by Nazi authorities tried to shut it down the headstrong entrepreneur refused to give up the fight Isay Rottenberg was born into a large Jewish family in Russian Poland in 1889 and grew up in Lodz He left for Berlin at the age of eighteen to escape military service moving again in 1917 to Amsterdam on the occasion of his marriage In 1932 he moved to Germany to take over a bankrupt cigar factory With newfangled American technology it was the most modern at the time The energetic and ambitious Rottenberg was certain he could bring it back to life and with newly hired staff of 670 workers the cigar factory was soon back in business Six months later Hitler came to power and the Nazi government forbade the use of machines in the cigar industry so that traditional hand rollers could be re employed That was when the real struggle began More than six hundred qualified machine workers and engineers would lose their jobs if the factory had to close down Supported by the local authorities he managed to keep the factory going but in 1935 he was imprisoned following accusations of fraud The factory was expropriated by the Deutsche Bank When he was released six months later thanks to the efforts of the Dutch consul he brought a lawsuit of his own His fight for rehabilitation and restitution of his property would continue until Kristallnacht in 1938 The Cigar Factory of Isay Rottenberg is written by two of Rottenberg's granddaughters who knew little of their grandfather's past growing up in Amsterdam until a call for claims for stolen or confiscated property started them on a journey of discovery It includes an afterword by Robert Rotenberg criminal defense lawyer and author of bestselling legal thrillers The Weimar Republic Eberhard Kolb, 2005 The Weimar Republic provides both a clear historical narrative of this critical period in German history and a detailed analysis of the scholarly research in the field Catholicism and the Roots of Nazism Derek Hastings, 2009-12-18 Derek Hastings here illuminates an important and largely overlooked aspect of early Nazi history going back to the years after World War I when National Socialism first emerged to reveal its close early ties with Catholicism Although an antagonistic relationship between the Catholic Church and Hitler's regime developed later during the Third Reich the early Nazi movement was born in Munich a city whose population was overwhelmingly Catholic Focusing on Munich and the surrounding area Hastings shows how Catholics played a central and hitherto overlooked role in the Nazi movement before the 1923 Beerhall Putsch He examines the activism of individual Catholic writers university students and priests and the striking Catholic oriented appeals and imagery formulated by the movement He then discusses why the Nazis embarked on a different path following the party's reconstitution in early 1925 ultimately taking on an increasingly anti Catholic and anti Christian identity *1933, das Jahr der Deutschen* Julius Streicher, 1934 Speeches and addresses by Nazi leaders during the year of 1933 *The Development of the SA in Nurnberg, 1922-1934* Eric G. Reiche, 2002-11-07 A case study of the growth of the SA or stormtroopers in Weimar Germany Stormtroopers (RLE Nazi

Germany & Holocaust) Conan Fischer, 2014-09-04 This examination of Hitler's stormtroopers provides vital insights into the collapse of the Weimar Republic and the establishment of the Nazi state Drawing on a wide range of archival sources and extensive biographical material left by the stormtroopers themselves the author challenges the belief that Hitler's SA was predominantly lower middle class This revealing study of street politics during an era of economic and political dislocation and is an important contribution to the history of inter war Germany which will appeal to the advanced undergraduate and postgraduate reader alike *Der Fall des Erzberger-Mörders Heinrich Tillessen* Cord Gebhardt, 1995 The Thanks of the Fatherland James M. Diehl, 2000-11-09 An account of the problems facing German veterans after WWII and the ways in which they were addressed in the decade following Germany's defeat The primary focus is on the major pieces of veterans legislation passed in the early years of the German Federal Republic Historical context is provided by the first two chapters and the conclusion which compares and contrasts the fate of veterans and their sociopolitical impact on German society following the two world wars Originally published in 1993 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Raiffeisen* Wilhelm Kaltenborn, 2018-07-02 The occasion of Friedrich Wilhelm Raiffeisen's two hundredth birthday in March 2018 provided the inspiration for this book In the words of the author the hagiography expected to surround Raiffeisen this year is unlikely to reflect the real person his work his aims and his legacy His anti-Semitism his Christian fundamentalism and his paternalistic view of society have been kept quiet for decades Kaltenborn now reveals these aspects through Raiffeisen's statements and writings which are otherwise ignored Yet these are an important part of his biography Raiffeisen's extensive anti-Semitic statements are reproduced here unabridged and in the original wording for the first time His fight against social democracy which he sees as a dangerous party of insurrection in Wilhelmine Germany is laid bare Finally it becomes clear how little Raiffeisen's idea of cooperatives has to do with democratic self help although this principle is what first gave the cooperative concept its special character In short the predominant and carefully nurtured picture of Raiffeisen undergoes a critical appraisal All of the statements in the book are supported with substantial material which includes the comprehensive secondary literature from the period prior to 1933 Based on these sources Kaltenborn sees the end of the Raiffeisen Organisation as occurring in 1930 Shortly before it had suffered a crisis due to horrendous mismanagement which threatened its very existence It was only as a result of massive state aid that disaster could be averted In addition it had come under the control of right wing extremists The Organisation took refuge under the wing of an all encompassing Federation its members only made up one fifth of rural cooperatives and had to abandon its specific traditional principles That which goes today under Raiffeisen's name according to Kaltenborn has nothing more to do with Raiffeisen the person his work and his aims After reading his anti-Semitic statements this is no cause

for regret Furthermore the author concludes Wilhelm Haas deserves more recognition He created an organisation of agricultural cooperatives that was four times as large spoke out against attacks on Jews and vigorously represented the democratic nature of cooperatives **Das Schrifttum zum Aufbau des neuen Reiches** Erich Unger,1983
