1945 Year Of Decisions Memoirs Volume 1:

Origins of the Cold War David S. Painter, 2005 This second edition brings the collection up to date including the newest research from the Communist side of the Cold War and the most recent debates on culture race and intelligence **Faces of Power** Seyom Brown, 2015-02-17 Seyom Brown's authoritative account of U S foreign policy from the end of the Second World War to the present challenges common assumptions about American presidents and their struggle with power and purpose Brown shows Truman to be more anguished than he publicly revealed about the use of the atomic bomb Eisenhower and George W Bush to be more immersed in the details of policy formulation and implementation than generally believed Reagan to be more invested in changing his worldview while in office than any previous president and Obama to have modeled his military exit from Iraq and Afghanistan more closely to Nixon and Kissinger's exit strategy from Vietnam than he would like to admit Brown's analyses of Obama's policies for countering terrorist threats at home and abroad dealing with unprecedented upheavals in the Middle East preventing the proliferation of nuclear weapons and containing new territorial expansion by China and Russia reinforce the book's constancy and change theme which shows that serving the interests of the most powerful country in the world transforms the Oval Office's occupant more than its occupant can transform the world Praise for previous editions Systematic and informative Brown has a gift for clear analysis that makes his book a useful contribution to the Cold War literature The Journal of American History Comprehensive and clear thorough without ever becoming dull providing detailed analysis of decisions while never neglecting the environment within which they are made International Affairs An excellent reference for those interested in United States foreign policy Well written and well researched it is appropriate for use in both undergraduate and graduate courses International Journal An analysis with difference an important difference Seyom Brown discusses United States policy from the perspective of how decision makers in the United States viewed their adversaries and the alternatives as those decision makers saw them Well worth the effort of a careful reading American Political Science Review The United States and the Berlin Blockade 1948-1949 Avi Shlaim, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1983 *American Foreign Relations Reconsidered* Gordon Martel, 2002-11-01 This major new textbook brings together twelve of the leading scholars of U S foreign relations Each contributor provides a clear concise summary of an important period or theme in US diplomatic and strategic affairs since the Spanish American War Michael Hunt and Joan Hoff provide an overview of the traditions behind US policy and a preview of things to come Together the contributors offer a succinct explanation of the controversies and questions that historians have grappled with throughout the twentieth century Students will find these essays a reliable and useful guide to the

various schools of thought which have emerged Although each of the scholars is well known for their detailed and original work these essays are new and have been specially commissioned for this book The articles follow the chronological development of the emergence of the United States as a world power but special themes such as the American policy process economic interests relations with the Third World and the dynamics of the nuclear arms race have been singled out for separate treatment American Foreign Relations Reconsidered 1890 1993 represents essential reading for upper level undergraduates studying modern American history The book has been designed and written exclusively to meet the needs of students either as a major course text or as a set of supplementary readings to support other texts *The United States and Decolonization in West Africa, 1950-1960* Ebere Nwaubani, 2001 He also gives a nuanced appraisal of the Cold War demonstrating that it was not as important as popularly believed in determining U S behavior in Africa The primary focus of the book is on West Africa with case studies focusing on the Ewe Ghana including the Volta dam project and Guinea The broad issues discussed are framed in the larger context of sub Saharan Africa and against the backdrop of the larger debates about the nature of post 1945 United States diplomacy BOOK JACKET **Unofficial Ambassadors** Donna Alvah, 2007-04 Those who viewed military families as representatives of their nation believed that they could project a friendlier more humane side of the United States campaign for dominance in the Cold War and were essential to the ideological battle against communism In this untold story of Cold War diplomacy Donna Alvah describes how these unofficial ambassadors cultivated relationships with both local people and military families in private homes churches schools women s clubs shops and other places BOOK JACKET **The Last Million** David Nasaw, 2020-09-15 From bestselling author David Nasaw a sweeping new history of the one million refugees left behind in Germany after WWII In May 1945 German forces surrendered to the Allied powers putting an end to World War II in Europe But the aftershocks of global military conflict did not cease with the German capitulation Millions of lost and homeless concentration camp survivors POWs slave laborers political prisoners and Nazi collaborators in flight from the Red Army overwhelmed Germany a nation in ruins British and American soldiers gathered the malnourished and desperate refugees and attempted to repatriate them But after exhaustive efforts there remained more than a million displaced persons left behind in Germany Jews Poles Estonians Latvians Lithuanians Ukrainians and other Eastern Europeans who refused to go home or had no homes to return to The Last Million would spend the next three to five years in displaced persons camps temporary homelands in exile divided by nationality with their own police forces churches and synagogues schools newspapers theaters and infirmaries The international community could not agree on the fate of the Last Million and after a year of debate and inaction the International Refugee Organization was created to resettle them in lands suffering from postwar labor shortages But no nations were willing to accept the 200 000 to 250 000 Jewish men women and children who remained trapped in Germany In 1948 the United States among the last countries to accept refugees for resettlement finally passed a displaced persons bill With Cold War fears supplanting

memories of World War II atrocities the bill granted the vast majority of visas to those who were reliably anti Communist including thousands of former Nazi collaborators and war criminals while severely limiting the entry of Jews who were suspected of being Communist sympathizers or agents because they had been recent residents of Soviet dominated Poland Only after the controversial partition of Palestine and Israel s declaration of independence were the remaining Jewish survivors able to leave their displaced persons camps in Germany A masterwork from acclaimed historian David Nasaw *The Last Million* tells the gripping yet until now largely hidden story of postwar displacement and statelessness By 1952 the Last Million were scattered around the world As they crossed from their broken past into an unknowable future they carried with them their wounds their fears their hope and their secrets Here for the first time Nasaw illuminates their incredible history and with profound contemporary resonance shows us that it is our history as well *The End of the Pacific War* Tsuyoshi Hasegawa, 2007 State of the art reinterpretations of the reasons for Japan s decision to surrender by distinguished historians of differing national perspectives and differing views **From Disarmament to Rearmament** Sheldon A. Goldberg, 2017-10-02 At the end of World War II the Allies were unanimous in their determination to disarm the former aggressor Germany As the Cold War intensified however the decision whether to reverse that policy and to rearm West Germany as a bulwark against the Soviet threat led to disagreements both within the US government and among members of the nascent NATO alliance The US military took the practical view that a substantial number of German troops would be required to deter any potential Soviet assault The State Department on the other hand initially advocated an alternative strategy of strengthening European institutions but eventually came around to the military s position that an armed West Germany was preferable to a weak state on the dividing line between the Western democracies and the Soviet satellite states Sheldon A Goldberg traces the military diplomatic and political threads of postwar policy toward West Germany and provides insights into the inner workings of alliance building and the roles of bureaucrats and military officers as well as those of diplomats and statesmen He draws on previously unexamined primary sources to construct a cogent account of the political and diplomatic negotiations that led to West Germany s accession to NATO and the shaping of European order for the next forty years *Times of Heroism, Times of Terror* Martin Thornton, 2005-05-30 Understanding foreign policy has become more essential than ever in today s integrated world How the United States acts as a nation has far reaching consequences especially in times of war To better understand America s stance on foreign policy today it is helpful to analyze how U S presidents and leaders have acted in the past particularly throughout the 20th century Thornton argues that descriptions or the classification of presidents have been misleading since presidents are often reacting to unique foreign policy crises and at times may have through good diplomacy forestalled serious crises from developing Basing his insights on numerous first hand sources such as handwritten notes and memos taken during meetings of heads of state he portrays the presidents as very human individuals struggling with difficult questions and the responsibilities only men of their position have to deal with

Topics examined in the book include but are not limited to Events leading up to the Cold War 1946 1952 Truman and Containment 1953 1960 Eisenhower and Military Challenge 1961 1963 JFK and Foreign Policy Leadership 1963 1968 Johnson and War Home and Abroad 1969 1974 Nixon Kissinger and the Search for Peace 1974 1976 Gerald R Ford 1977 1980 Jimmy Carter 1981 1988 Ronald Reagan 1989 1991 George H Bush and the End of the War This text stands out due to its readability and its comprehensiveness The average reader will have no problem getting a clear grasp of the topic at hand The college professor of U S or international history political science international studies or even ethicist who wishes to engage students in their reading assignments would do well to pick up this text
