Living without God: A Multicultural Spectrum of Atheism Sanjit Chakraborty,Anway Mukhopadhyay,2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism What does atheism mean in different cultural contexts Can this term be applied appropriately to different religious discourses which conceptualize God gods Goddess goddesses and also godlessness in hugely divergent ways Is my God the same as yours If not then how can your atheism be the same as mine In other words this volume raises the question Is it not high time that we proposed a comparative study of atheism s alongside that of religions rather than believing that atheism is centered in the Western experience Apart from answering these questions the book highlights the much needed focus on the philosophical negotiations between atheism theism and agnosticism The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical theological literary and scientific corollaries Previously

In spite of doctrinal differences within these three belief systems, they agree that human beings are in a predicament from which they need to be liberated. Indian religions, including Hinduism and Buddhism, share the belief that human nature is inherently perfectible, while the epistemological and psychological limitation of the human being is integral to Christian belief. Regarding the immortality of the human being, Hinduism and Christianity traditionally and generally agree that human beings, as atman or soul, possess intrinsic immortality. On the contrary, Buddhism teaches the doctrine of no self (anatta). Further, in their quest to analyze the human predicament and attempt a way out of it, they employ different concepts: such as sin and salvation in Christianity, attachment (tanha) and enlightenment (nirvana) in Buddhism, and ignorance (avidya) and liberation (moksha) in Hinduism. This volume seeks to show that behind these concepts are deep concerns related to human existence and its relationship with the whole creation. These common concerns can be a basis for a greater understanding and dialogue between Christians, Hindus, and Buddhists The Gods of Northern Buddhism Alice Getty, 1914 Transl. from the French of Joseph Deniker **Martin Luther and Buddhism** Paul S. Chung, 2002 This book is designed to bring Martin Luther into dialogue with Asian theology and spirituality, especially that of Mahayana Buddhism, and its interpretation of dukkha (suffering), in which an attempt is made to construct a theological aesthetics of divine suffering and human suffering, leading to creative insights for interfaith dialogue The Complete Idiot's Guide to World Mythology Evans Lansing Smith, Nathan Robert Brown, 2008 The dictionary defines mythology as a collection of ancient tales handed down over millennia, mainly dealing with gods and goddesses that explain the way the world works, from natural events to society at large. Many people think of the deities of Greece and Rome when they think of mythology, forgetting that almost every culture has its own set of myths to interpret and explain its distinct worldview, often showing striking and fascinating similarities to the classical myths most people are familiar with. *The Complete Idiot's Guide to World Mythology* explores the gods and goddesses, heroes and heroines, monsters and angels of the myths from every corner of the globe: the Americas, the Middle East, and Africa, Asia, and more. Additionally, it explores the parallels between every culture, including Greece and Rome, striking similarities in mythic figures and the structure, action, wording, and result of the stories themselves *A Christian Theology of Suffering in the Context of Theravada Buddhism in Thailand* Satanun Boonyakiat, 2020-06-30 In this book, Satanun Boonyakiat elucidates a Christian theology of suffering relevant to the context of

Theravada Buddhism in Thailand Grounding his work in a trinitarian comparative theology of religions Boonyakiat explores the ways in which Buddhist teachings on suffering specifically the Four Noble Truths can challenge enrich and deepen a Christian perspective Ultimately Dr Boonyakiat suggests a Christian theology of suffering relevant to the people of Thailand both Christian and Buddhist alike must move beyond a traditional western emphasis on theodicy to address a practical response to suffering's lived reality a response rooted firmly in Scripture and grounded in a theology of the cross
