Roberts, 2013-09-05 First published in 1998 The Encyclopedia of Comparative Iconography compares the uses of iconographic themes from mythology the Bible and other sacred texts literature and popular culture in works of art through various periods cultures and genres Art historians now tend to study narrative themes depicted in works of art in relation to such subjects as gender and sexuality politics and power ownership and possession ceremony and ritual legitimacy and authority The Encyclopedia of Comparative Iconography reflects these new approaches by ordering the themes of various iconographic sources in particular biblical mythological and literary texts according to these new emphases Each handsomely illustrated entry discusses the major relevant iconographic narratives and the historical background of each theme A list of selected works of art that accompanies each essay guides the reader to examples in art that depict the theme under discussion Each essay includes a list of suggested reading that provides further sources of information about the themes A general bibliography of reference books is listed separately and can be used in association with all the essays With 119 entries written by 42 experts the Encyclopedia of Comparative Iconography is an important reference work for art historians students of art history artists and the general reader Function and Meaning in Buddhist Art, 2023-08-07 What was the function of Buddhist art at the time Buddhism was a major religion in large areas of South East and South East Asia Can we establish what these sculptures and paintings meant to Buddhist believers living at a time when this art fulfilled important religious needs These questions are discussed not answered in a volume about Function and Meaning of Buddhist Art which contains the papers of a workshop on this theme held at Leiden University in

1991 While dealing with a variety of themes and subject matter sometimes in great detail sixteen specialists focus on ritual and semantic aspects of Buddhist works of art from countries such as India China Japan Tibet Thailand and Indonesia Recent non western art historical publications show an increasing tendency to work with methodological frameworks developed by specialists on western art Moreover there are more similarities between Buddhist and other religious art than literally meet the eye For this reason two comparative studies are included in which parallels and universals are brought forward Two main lines emerge in the results offered in this book the one indicating a tendency to focus on intended meanings the other concentrating on more than one level of reception of Buddhist art in a liturgical context **Buddhist Art** ,1942
