Paul Hattaway

Buddhist Studies in the People's Republic of China Jiyu Ren,Jiwen Du,Dahua Cai,Shuzhuo Jiang,1992-01-01 **The Buddhist Theory of Self-Cognition** Zhihua Yao,2012-09-10 This highly original work explores the concept of self awareness or self consciousness in Buddhist thought Its central thesis is that the Buddhist theory of self cognition originated in a soteriological discussion of omniscience among the Mahasamghikas and then evolved into a topic of epistemological inquiry among the Yogacarins To illustrate this central theme this book explores a large body of primary sources in Chinese Pali Sanskrit and Tibetan most of which are presented to an English readership for the first time It makes available important resources for the study of the Buddhist philosophy of mind **Journal of Chinese Religions**,1998 Peoples of the Buddhist World Paul Hattaway,2004 In the past 20 years Christians around the world have launched initiatives to reach Muslims Communists Hindus and other major unreached people groups but the Buddhist world has largely been overlooked Hundreds of millions of Buddhists continue to live and die without any exposure to the Gospel In Peoples of the Buddhist World researcher and author Paul Hattaway graphically presents prayer profiles of more than 200 Buddhist people groups around the world beautifully illustrated with color pictures throughout In addition experts have contributed articles on various aspects of Buddhism helping the reader to learn pray and work until that day when the kingdom of the world has become the kingdom of our Lord and of his Christ and he will reign for ever and ever Rev 11 15 From publisher s description
 中国佛教史论,中国社会科学出版社,1994 Buddhism and Politics in Twentieth Century Asia Ian Harris,2010-07-15 In this study a team of international scholars assess the manner in which Buddhist organizations and individuals have resisted come to terms with or in some cases allied themselves with the forces of war modernity westernization nationalization capitalism communism and ethnic conflict By examining issues such as left right divisions in the monastic order the rise of organized lay movements Buddhist social activism as well as explicitly Buddhist inspired political activity this book seeks to demonstrate that the emphasis on meditation and mental training is only one strand in this richly complex world historical tradition **Chinese Religions** Gary Seaman,1998 **Historical Dictionary of Daoism** Ronnie L. Littlejohn,2019-11-29 Daoism is the oldest indigenous philosophic spiritual tradition of China and one of the most ancient of the world s spiritual structures The name Daoism comes from the term dao which means a way or a road through the field or woods to one s village It also means the way to do something such as how a master craftsman carves wood makes a bell or even butchers an ox But dao is also a nominative in the history of Daoism referring to the energizing process that permeates and animates all of reality and moves it along However both text and practice in this tradition insist that dao itself cannot be described in words it is not God in the sense of Western philosophy or religion Daoism has no supreme being even if there is an extensive grammar about nominally self conscious entities and powers for which the Chinese use the word spirit shen For example the highest powers of Daoism are variously called Taishang Laojun the deified

Laozi the Celestial Worthy of Primordial Beginning Yuanshi tianzun the Jade Emperor Yuhuang Shangdi or the Perfected Warrior Zhenwu But these are expressions of dao in specific shen they are not identical to Dao except in the most unique case when Laozi the putative founder of Daoism and author of its major work Daodejing is said to be one with the dao

Historical Dictionary of Daoism contains a chronology an introduction appendixes an extensive bibliography and more than 400 cross referenced entries related to the Chinese belief and worldview known as Daoism including dozens of Daoist terms names and practices This book is an excellent resource for students researchers and anyone wanting to know more about Daoism

Religion Index Two, 1994 *Culture and Power in the Reconstitution of the Chinese Realm, 200-600* Scott Pearce, Audrey Spiro, Patricia Ebrey, 2020-03-23

The period between the fall of the Han in 220 and the reunification of the Chinese realm in the late sixth century receives short shrift in most accounts of Chinese history The period is usually characterized as one of disorder and dislocation ethnic strife and bloody court struggles Its lone achievement according to many accounts is the introduction of Buddhism In the eight essays of *Culture and Power in the Reconstitution of the Chinese Realm 200-600* the authors seek to chart the actual changes occurring in this period of disunion and to show its relationship to what preceded and followed it This exploration of a neglected period in Chinese history addresses such diverse subjects as the era's economy Daoism Buddhist art civil service examinations forays into literary theory and responses to its own history
