**The Buddhist Writings of Lafcadio Hearn** Lafcadio Hearn,1977      **The Buddhist Writings of Lafcadio Hearn** Lafcadio Hearn,1981      **The Neo-Buddhist Writings of Lafcadio Hearn** Antony Goedhals,2020-04-20 The Neo Buddhist Writings of Lafcadio Hearn Light from the East by Antony Goedhals offers radical rereadings of a misunderstood and undervalued Victorian writer It reveals that at the metaphysical core of Lafcadio Hearn s writings is a Buddhist vision as yet unappreciated by his critics and biographers Beginning with the American writings and ending with the essay and story meditations of the Japanese period the book demonstrates Hearn s deeply personal and transcendently beautiful evocations of a Buddhist universe and shows how these deconstruct and dissolve the categories of Western discourse and thinking about reality to create a new language a poetry of vastness emptiness and oneness that had not been heard before in English or indeed in the West      *The Writings of Lafcadio Hearn* Lafcadio Hearn,1922      *The Writings of Lafcadio Hearn* Lafcadio Hearn,1922      *Curators of the Buddha* Donald S. Lopez Jr.,Donald S. Lopez,1995-08-15 A critical history of the study of Buddhism in the West incorporating insights of colonial and post colonial cultural studies Social political and cultural conditions that have shaped the course of Buddhist studies are discussed      **Some New Letters and Writings of Lafcadio Hearn** Lafcadio Hearn,1925      **Buddhism and the Natural World** P. D. Ryan,1998 An examination of man s relationship with the living world he shares Offering a radical analysis of consumerist attitudes the author applies the fundamental Buddhist message of non violence in an attempt to draw out a middle way between destructiveness and sentimentality      **The American Encounter with Buddhism, 1844-1912** Thomas A. Tweed,2005-10-12 In this landmark work Thomas Tweed examines nineteenth century America s encounter with one of the world s major religions Exploring the debates about Buddhism that followed upon its introduction in this country Tweed shows what happened when the transplanted religious movement came into contact with America s established culture and fundamentally different Protestant tradition The book first published in 1992 traces the efforts of various American interpreters to make sense of Buddhism in Western terms Tweed demonstrates that while many of those interested in Buddhism considered themselves dissenters from American culture they did not abandon some of the basic values they shared with their fellow Victorians In the end the Victorian understanding of Buddhism even for its most enthusiastic proponents was significantly shaped by the prevailing culture Although Buddhism attracted much attention it ultimately failed to build enduring institutions or gain significant numbers of adherents in the nineteenth century Not until the following century did a cultural environment more conducive to Buddhism s taking root in America develop In a new preface Tweed addresses Buddhism s growing influence in contemporary American culture      **Edward Thomas's Prose** Ralph Pite,2025-10-02 Edward Thomas 1878 1917 is a renowned poet Until recently his prose writing has by comparison been neglected and very often dismissed by critics Thanks not least to the multi volume new edition being published by OUP gen eds Guy Cuthbertson and Lucy Newlyn this body of work is being re evaluated This

new study by Ralph Pite forms part of that undertaking it is the first to consider Thomas's prose on its own terms independently of the poetry that it preceded. By considering all of Thomas's prose work in its wide variety of genres—nature writing, literary criticism, fiction, autobiography—and by drawing for the first time on the whole range of his reviewing, this study transforms understanding of his development. The continuity of his critical perspective emerges; his Celtic loyalties, their nature and their depth, are revealed; both the complexity and the conviction of his politics are brought to light alongside his receptive alertness to innovative writing and his own originality and daring as a writer. The view of his achievement generated by his interwar reception itself, the outcome of societal mourning and griefwork, is challenged, so is the critical consensus regarding the quality of his prose and the reasons behind its changing styles across Thomas's career. From all of this it becomes clear, moreover, how powerfully Thomas's work speaks in the contemporary moment of environmental and climate breakdown. Thomas's prose seeks constantly to articulate a relationship of absolute interdependence between human beings and the natural world. His writing is so exploratory and original because Thomas seeks to address the problematic reality that interdependence: this truth of humanity's place in the natural world is perceptible to Western eyes only as mystery.
